

## FRENCH THREATEN TO QUIT CONFERENCE

## HOW FAR WILL MORGAN GO IN HELPING GERMANY?

INVITATION OF BANKER TO FLOAT LOAN CAUSES SPECULATION.

U. S. INTERESTED Morgan Can Only Deal With Finance as a Private Citizen.

By DAVID LAWRENCE. Copyright, 1922, by The Janesville Gazette.

Washington—The United States government has a rather delicate question to solve in connection with the invitation extended personally to J. P. Morgan to be a member of a subcommittee of bankers selected by the republicans to advise on the subject of an international loan.

America is not officially represented on the reparations commission though President Harding is hoping Congress will give him the power to make such an appointment.

The committee of bankers, in a sense an unofficial body and cannot of course commit the United States government even though a prominent and influential American banker, J. P. Morgan, is a member of it. But in view of the expressed policy of President Harding and Secretary of State Hughes requesting American firms to consult the government here before agreeing to any flotation of foreign loans, Mr. Morgan is morally bound to ask the consent of the department of state. Further the question will be whether the department of state has any objection to his acceptance of the invitation extended to him—for the government will not be in the position of approving or disapproving of the loan.

Lent Money to Allies Mr. Morgan's firm lent large sums of money to the allies before the war. It is now a matter of public knowledge that the future of European finances and (Continued on page 8)

## VILLA WANTS TO BE GOVERNOR OF DURANGO STATE

Pancho Villa. Gen. Francisco Villa is reported to have announced his candidacy for the governorship of Durango in recent advices from Mexico. Under his arm he is reported to have pledged to refrain from politics.

## Greek Army in Advance Upon Turks

Constantinople—The capture of Soma and Scania Nova, about 40 miles south of Smyrna, Asiatic Minor, by Greek troops, was confirmed in a Turkish nationalist communication received here Monday. The Greek army has begun its advance southward. The Turks are rushing up troops in great numbers and heavy fighting is reported in the Italian zone.

## Famous Old Dynamite Ship Sold as Junk

Washington—The old navy "dynamite" cruiser Vesuvius, in Spanish war days hailed as the possible pioneer of the modern submarine, has been sold as junk for \$4,250.

Like many other novel crafts, the "dynamite" ship failed and was discarded. In 1898, when the American fleet concentrated before Santiago de Cuba, the Vesuvius steamed down to join the grim ring of steel with three slanting, slender muzzles of her dynamite guns thrusting forward. She was a queer looking vessel, operated by compressed air, huge projectiles loaded with nitroglycerine, sufficient, it was said, to tear apart any ship or fortification, were to be hurled.

The slim cruiser with her trio of "dynamite" muzzles, was ordered, in to hurl death and destruction into the walls of Moro castle at the close range necessary because of low power of the air guns. The Vesuvius finally "let go." A terrible roar came back from the bluff. It shook the earth and sea and sent the spectators scurrying to caves and cellars.

But it proved only sound. When Santiago fell and examination was possible it was found no damage had been done to the old forts.

Thenceforth the Vesuvius served as patrol and dispatch boat.

## DEACONS BAR FILM ACTRESS FROM PULPIT

Nashua, N. H.—Virginia Pearson, motion picture actress, who was to have spoken at the First Baptist church Sunday night, was prevented at the last minute by the deacons. They instructed the pastor to announce that the action was for "the good of the church." A crowd that filled the auditorium for the service, Miss Pearson told of "efforts to raise the moral standard of the stage." She said, afterwards that she was invited to speak by the pastor, adding that the action of the deacons was "apparently the work of people who think that actors and actresses are damned forever."

## MARY GARDEN QUILTS AS OPERA DIRECTOR

Chicago—Though Mary Garden announced nothing definite concerning her future following her resignation Sunday night as general director of the Chicago Opera association, it was expected she would leave for New York sometime Monday, ostensibly for a conference with her concert manager, Charles Wagner, who it reported to have offered her \$250,000 for a concert tour next season. Later she may go to Europe. Interest centered Monday about M. Lucien Muratore, whose break with Miss Garden was the most dramatic of the season.

The tenor said that no contract for his appearance with the Chicago Opera company had yet been signed.

## MEMBERSHIP DRIVE FOR TOBACCO POOL GETS UNDER WAY

ORGANIZATION WORK STARTS IN NORTH COUNTIES. DANE NEXT FIELD

Quick Action to Handle 1922 Crop Hoped for in Campaign.

(By Associated Press.) Madison—Organization of the Northern Wisconsin Tobacco Pool which plans to market co-operatively the 60,000,000 pounds of tobacco grown annually in this state, is being actively undertaken this week in the northern growing sections.

Farmers representing an acreage of 17,300 acres in the Vernon county, Trempealeau and Eau Claire districts, are being asked to contract to dispose of their product over a period of five years, through the cooperative pool. According to H. G. Foster, deputy commissioner of markets, interest shown at meetings by farmers of that section has been such as to indicate complete success of the membership drive.

Dane County Next As soon as these districts have been canvassed the organized work will be undertaken in the large Dane county section where 32,000 acres of the Wisconsin tobacco crop are grown. Organizers from Kentucky will carry on this work in an effort to contract 75 per cent of the total acreage before June 1.

Judge Robert Bingham, Kentucky banker, and James Stone, General manager of the Kentucky Tobacco pool, will direct the membership drive throughout the southern section of Wisconsin, starting at Janesville, May 2.

Funds Are Assured As soon as the necessary acreage has been contracted for, the pool will be set under way, to handle, if possible, the 1922 crop. While it will be necessary to raise approximately \$2,000,000 to operate the organization during its first year, Mr. Foster says that sufficient funds have been assured by the banks.

## BRILLIANT METEOR STARTLES PACIFIC COAST OBSERVERS

Los Angeles—A meteor of unusual size and brilliancy darted across the sky west of Los Angeles Sunday night.

Observers at the Mount Wilson observatory said the meteor was 15 to 20 times as brilliant as the planet Venus. From their perch high up on the mountainside, the meteor was seen to break at an apparently short distance from the earth and its flaming mass was dissipated in the air.

The meteor was of startling appearance. It was followed by a flaming trail of blue and green shades, which spread out like a fan for a considerable distance.

Booze Runners Caught Wearing Uniform of U. S. New York—A bootlegging scheme whereby liquor was smuggled into this country from Bermuda and Cuba on former submarine chasers, commanded by officers wearing the uniform of the United States navy, has been uncovered by U. S. agents.

The former Chaser Number 101, renamed Flus, has been seized with her cargo of liquor and crew of seven.

Customs officials claimed to have received from the crew a story to the effect that pirates held up the chaser Sunday afternoon, 20 miles off Montauk point, Long Island, boarded the craft with drawn revolvers, bound the commander to the mast and seized the chaser's cargo of liquor.

## DELAVAN MAN AT U. W. OVERCOME BY GAS; SERIOUSLY ILL

Delavan—Clifford Moses, 28, son of Mr. and Mrs. Charles Moses of Delavan, a veteran of the World War in which he served in the Rainbow division, is in a critical condition at the Bradley infirmary of Madison, having been overcome by gas while taking a bath Saturday night.

Moses is a federal board student at the University of Wisconsin, in his first year. He came to his room at 415 N. Murray street at 9 p. m. Saturday and entered the bath room. A half hour later, at 12:30 Sunday morning a room mate found Moses in the tub unconscious. Gas was escaping from the heater. He was revived by the department's lung pump and taken to the university infirmary, where he again became unconscious.

He was wounded and gassed overseas.

## At Local Theaters

"Peculiar Alibi," "Mae Murray," "Never Weaken," "Harold Lloyd," "Lavender and Old Lace," "Marguerite Snow," "White Oak," "William S. Hart," "Dr. Jim," Frank Mayo.

## Janesville Girl Is Taken With Gang Confessing Robbery

Giving her name as Eleanor Kreuziger and formerly of Janesville, a young woman was arrested in Chicago Saturday and held by the police.

Her name was also arrested 12 men, all young, ranging in age from 18 to 24. They confessed to robberies and burglaries totaling \$50, with loot amounting to \$100,000. Eight of the men confessing were Charles Witzman, Henry Bohrer, Edward Brennan, Walter Page, John Obroski, Raymond Briggs, John Overton, and Leo Rosedell.

It was impossible to locate anyone by the name of Kreuziger in Janesville. A girl bearing a similar name was discharged for suspicion of theft around Christmas by a Janesville family. The description of the Kreuziger girl tallies with this Janesville identification.

Among the principal places looted by this gang are: Borden Farm Products company, 2607 West Monroe street, \$1,335; William Moore, 218 North Hamilton avenue, National Tea company collector, \$1,800; Frank Olterson, another National Tea company collector \$989.63; Dair company, Flournoy street and Campbell avenue, \$250 and \$450 in checks; M. Rubenstein, 1344 West 14th street, \$2,000.

## YOUTHFUL GANG WILL BE IN COURT TUESDAY

(By Associated Press.) Chicago—Following a complete investigation by Lieut. Michael Grady, the names of 13 young men and one girl were made public Monday as members of a gang of robbers who terrorized the city during the winter, obtained pay rolls, stole automobiles, held up citizens and in other ways kept the police on the jump for a period of several months. The girl's name is Miss Eleanor Kreuziger, 22 years old, Janesville, Wis.

From one to 15 robbery charges have been made against each of the members of the gang. They will appear in the boys' court Tuesday. Although they admitted committing fifty or more crimes, the boys could definitely be held up to 15. No charges of robbery were made on the automobile thefts, because the cars stolen were used only temporarily while committing a hold up or other crime, and they were then abandoned without attempt to dispose of them for money. Four members of the gang were arrested in a stolen car Thursday and their confessions led to the arrest of the others.

## Free State Is Cut Off by Big 24-Hour Strike

(By Associated Press.) London—The Irish Free State was cut off from the outside world and even from the British mainland by a general strike of labor against militarism in Ireland. Telegraphic and telephone communication had ceased and all means of transportation were paralyzed.

One wireless set was working between military headquarters in Ulster and the Dublin headquarters, and since this was reported to be carrying on a routine message, it was assumed that nothing untoward was happening among her neighbors to the south.

Between London and Dublin there were no means of communication whatever.

## Lover Shoots Girl and Self

(By Associated Press.) Port Washington—Refused permission to wed Miss Kate Watry, 30, daughter of a prominent Port Washington politician, Peter Gibbs, Sheboygan cannery employee, shot the girl to death and then killed himself in the Watry home Sunday.

Parents of the girl found her lying on the dining room floor, with the girl stretched at his feet. A revolver, with two empty shells in the cylinder, was clutched in his hand.

There had been no quarrel, according to authorities.

## BERGDOLL WRIT IS DENIED BY COURT

(By Associated Press.) Washington—The supreme court Monday denied the application of Edwin R. Bergdoll, Philadelphia, for a writ of habeas corpus.

Erwin, a brother of Grover Cleveland Bergdoll, is serving a sentence of four years in Leavenworth for failure to perform military service during the war and contended he was illegally convicted.

Justice Bailey, in the supreme court of the District of Columbia, Monday ruled the alien property custodian cannot be required to surrender property to Grover C. Bergdoll, valued at \$750,000, if the court of the District of Columbia has been convicted of desertion and is now a fugitive from justice.

## LANDIS' BROTHER DIES

Ashtabula, N. Y.—Charles B. Landis, former member of congress from Indiana and for several years an official of the Du Pont Powder company, died early Monday at a local hospital. He came here a week ago for a prostate gland operation.

Mr. Landis' brother was on route to his bedside when death came.

RAIZEN TRIAL POSTPONED New York—Trial of Mrs. Lillian Raizen, charged with the murder of Dr. Abraham Gluckstein, has been indefinitely postponed pending the report of a commission examining her sanity.

## SMOOT ADVOCATES ADJUSTABLE PLAN IN FUTURE TARIFF

PRESIDENT COULD INCREASE OR CUT RATES. SAVES REVISION

Fair Treatment for U. S. Products; One Tariff for all Countries, Idea.

(By Associated Press.) Washington—Provision in the pending tariff bill which would authorize the president to increase or decrease rates and proclaim American valuation, were described in the senate by Senator Smoot, republican, Utah, as not only offering a solution of the particular tariff problem, now before congress, but also as suggesting a practical basis for a continuing scientific adjustment of the tariff in the future.

Would Eliminate Details. "Once they are understood," Senator Smoot said, "I believe every member of congress will welcome legislation which will in part free them from dealing with burdensome details, and from the excruciating task of putting through a general tariff revision in a single bill."

"It is impossible to frame a law on the basis of conditions existing which will fit the conditions of a few years hence, or even one year from now, as conditions are changing so rapidly. We are, therefore, confronted either with the possibility of making a tariff law in a short time or with the reduction to legislation of the president's admirable proposals."

One Tariff for All. Calling attention to the fact that the finance committee had stricken from the house bill provisions authorizing the president to negotiate reciprocity treaties with other countries, Senator Smoot said that the tariff law in a short time or with the reduction to legislation of the president's admirable proposals.

The unusual part of the case was so badly damaged that they abandoned it and hiked through the fields to safety. None of the occupants of the buggy was hurt.

The unusual part of the case was so badly damaged that they abandoned it and hiked through the fields to safety. None of the occupants of the buggy was hurt.

## BABY, ABANDONED IN EVANSVILLE, NOW HAS NAME

The gurgling baby found in the car of Frank Crocker, Brooklyn, when he stopped in front of the home of William Lawrence at Evansville, Ind., is no longer a nameless child.

Judge Charles L. Fifield on Saturday allowed the child to be adopted by Mr. and Mrs. Everett Funk, Evansville, and he will hereafter be known as Donald Dale Funk.

Macron Nesbit, of Union, had been to Janesville where they secured a marriage license and on their way home stopped at the Lawrence home. When they came out and started to get in to the car, they found a bulky bundle, which let out a cry. It was a three-weeks old baby boy.

Storekeepers near the Lawrence home had seen a woman run through the alley.

## Lake Steamer Believed Sunk With Its Crew

(By Associated Press.) Sault Ste. Marie, Mich.—The steamer Lampden of the Canadian Light House service, carrying a crew of about 15 men, is believed to have sunk southeast of Michipicoten Island in Lake Superior, during the storm of last week.

The Lampden, carrying light house keepers and supplies, was last seen by the steamer Collingwood and Val Cartier, which passed through the American locks here Sunday night. A pilot horse similar to that of the Lampden, was seen floating about, but no name was seen.

The exact number aboard the "little craft" is not known. She was in command of A. A. Brown, of Orillia, Ont., and carried men, it is believed, Little, Albert, Abish, and Frank Sims of Sault Ste. Marie, Ont.

## SMALL TRIAL AT WAUKEGAN RESUMED

(By Associated Press.) Waukegan, Ill.—Gov. Len Small went on trial before Judge C. C. Edwards in Lake county circuit court at 10:15 a. m. Monday charged with conspiracy to embezzle state funds.

With the last preliminary disposed of, 13 men were called to the box and selection of a jury to try the governor, who was indicted July 20 of last year, got under way.

TREASURY CHARGES ARE DECIDED UPON Charleston, W. Va.—Charges of treason growing out of the "Logan March" last fall, were selected Monday by counsel for the state as the first upon which nine union leaders and members are to be tried in the circuit court here. The defense announced its intention to enter a demurrer to the treason charges and to file a motion to quash that indictment.

## KERENSKY ENVOY ROUSES SUSPICION IN SEMENOFF CASE

Ambassador Bakmeteff.

Senator Borah is now investigating the activities of Ambassador Bakmeteff, accredited by the former Kerensky regime, in connection with Gen. Gregory Semenovoff. Borah believes Bakmeteff furnished bail for the relief of the Cossack chief and is probing the report that he invested \$500,000 in New York.

## COLLISION HALTS THEFT OF SEDAN

Car, Stolen Here, Abandoned South of City After Accident.

A common buggy driven by Fred Henke, town of Rock farmer, follied attempts of thieves, to speed away with the 1922 Ford sedan of George J. Bennett, Janesville, insurance agent, Sunday night. The sedan, which was stolen here, was abandoned in a field south of the city.

When the crash occurred, about 8:30, Henke and his friends were thrown from the buggy and by the time they got to the car, the occupants, occupants, had escaped. The sedan was abandoned in a field south of the city.

When the crash occurred, about 8:30, Henke and his friends were thrown from the buggy and by the time they got to the car, the occupants, occupants, had escaped. The sedan was abandoned in a field south of the city.

## 88 Accidents Held Avoidable

A total of 88, avoidable accidents have occurred on the Chicago & Northwestern lines this year, according to a report just issued. Two of the accidents, both due to careless motor car driving, states the report.

The list covers every sort of accident. It includes those both to employees of the road and civilians.

## LARGEST TELESCOPE GLASS IN WORLD CAST

(By Associated Press.) Vancouver, B. C.—A 10-ton speculum for the Frye observatory of Seattle has been cast here by T. S. H. Shearman, astronomer. This is said to be the largest telescope glass in the world.

The hands used in the manufacture of this speculum came from five different countries. With this glass, the new Frye telescope will have a 10-foot speculum and a focal length of 10 feet.

## ELKHORN RESIDENCE DAMAGED BY FIRE

(SPECIAL TO THE GAZETTE.) Elkhorn—The Fred Bruser residence on south East street, was badly damaged by fire Saturday forenoon, supposed to have been started by the electric wiring. The residence had been improved recently with a new roof and paint and is one of the largest and most desirable houses in the city.

## WAUSAU'S 2ND PAPER QUILTS PUBLICATION

Wausau, Wis.—The Wausau Daily Tribune, established in November, 1921, suspended publication with the issue of April 22, stating in a front page story that persons who had pledged their support to the paper had failed in their obligations.

## HARBORS, CLEAR OF ICE

Ashland, Wis.—All Lake Superior harbors are practically clear of ice, according to reports received here. Large fields of floating ice can be seen in the open lake, but ice in Chicago harbor was out last night.

## POINCARE FLATLY DECLARES FRENCH WILL GO IT ALONE

GERMANY MUST PAY HER DEBT OR SHE WILL SUFFER. FORCE IF NEEDED

Will Get Out of Genoa if Conditions Are Not Changed.

(By Associated Press.) Bar le Due—Premier Poincare announced today that the French delegation at Genoa could not go ahead with its work under the agreed conditions France would respectfully have to cease participation in the conference.

Bar le Due—France will, if necessary, undertake alone to see that the treaty of Versailles is executed, if the Germans default in their reparations payments, Premier Poincare intimated in a speech before the general council of the department of the Moselle today.

"The 31st of May, when the Germans must either accept the conditions laid down by the reparations commission or default in their payment, is an important date for France," said the premier. "It is France's duty," he added, "in full independence," to assume the duty of maintaining the integrity of the treaty."

Must Execute Treaty. "All we have ever asked and all we ask today is the execution of the treaty," said M. Poincare, "and that we must have and should have. Our future and our national prosperity depend upon it."

"It is not by precipitate action or by decision without reflection that we must obtain it. It is by persevering and methodical action. But it must be done."

Wants Ally Aid. The premier declared the ardent hope of French operation of the allies in case Germany defaulted.

"But according to the terms of the treaty," he added, "each must take care of itself. We are not in a position to demand reparations from a country which has defaulted. We shall not suffer if that our unfortunate country succumb under the burden of reparations along with the German." "We shall defend in full independence, the French cause and shall not abandon any arm, the treaty."

Referring to the Russo-German treaty signed last week at Rapallo, Premier Poincare said:

"That accord brings into the full light of day the sympathies which had developed in the darkness between the bolshevik and the Germans."

"Things are going on in Germany," he said, "as if the German government were waiting for an opportunity to foment trouble sooner or later, on their eastern frontier with a view to getting back by force the Polish regions taken from Germany by the treaty of Versailles."

"What is going on in Genoa," continued the premier, "singularly confirms all we knew of the state of mind of too great a portion of the German empire. How long has it been in the hands of the bolsheviks and we are sure the treaty has been entirely published."

"Is it or is it not accompanied by secret clauses. Is it simply a shield for political and military conventions?"

Menace to Poland. At any rate, added M. Poincare, the coming together of Germany and the bolsheviks was a great menace to Poland and an indirect menace to France.

"If the French delegation cannot go on with the work at Genoa under the conditions agreed upon, they shall have with great regret to discontinue our collaboration in the conference, for the success of which we have done all we could."

## FRENCH ATTITUDE AT GENOA IS STATED

(By Associated Press.) Genoa—The French delegation announced Monday that it was willing to subscribe to the proposed pact under which the various nations would agree to abstain from aggression, provided it was backed by proper guarantees considered especially necessary in view of the Russo-German treaty.

## Kneeskern Case Defense to Rest

(By Associated Press.) Decatur, Ia.—The defense will rest its case late Monday in the trial of B. F. Kneeskern, accused of killing Mr. and Mrs. Charles Van Brocklin. It was announced at 11:30 a. m. that the defense would rest its case.

The final pleas are expected to start Tuesday morning. It is predicted that they will not be completed, even witnesses were examined by the state Monday morning.

## BROKER FIRM SUSPENDS

New York—Suspension of the stock brokerage firm of Field Brothers was announced by the Consolidated Stock Exchange Monday.

## THE WEATHER IN WISCONSIN

Unsettled with showers in east and south portions Monday today, and possibly in southern portion Tuesday; not much change in temperature.

Janesville thermometer readings, Monday, April 24:

**F. R. A. to Dance:** The F. R. A. will meet Tuesday night in Eagles hall.

## WHAT? KISSED AND HUGGED RIGHT ON THE PUBLIC SQUARE!

Back-ground for the first act of the high school play "The Man on the Box" to be presented at the Myers theater Thursday night by the Senior A class, was made Saturday when several of the participants pulled an advertising stunt at the Corn Exchange.

The play opens when Warburton, played by Francis Crowley, appears in court charged with driving a cab through town, and abducting a girl. Saturday afternoon, an old cab pulled by horses loaned by the city street department, was driven to the Corn Exchange. There the girl, impersonated by Jerome Murphy, dressed in a miscellany of clothes loaned by high school girls, was grabbed, hugged, kissed, and thrown into the cab by the man impersonated by Ronald Galbraith. Galbraith was then arrested by Officer Con O'Leary, who had been put "hep" to the plan, and taken to the station, where he was later released. The plan proved to be quite a success, attracting a good deal of attention from the many shoppers who were in the vicinity.

Miss Hannah Morris, faculty advisor for the class, reports that tickets are selling well, and that success for the play, the first one given in a theater by a high school class, and the first class play given in several years, is assured.

## "I SEE BY THE GAZETTE"

**COMING EVENTS.**  
**MONDAY, APRIL 24.**  
 Health of Americans, will meet Monday night at 8 p. m. at the home of Mrs. W. J. Jones, 102 Forest Park boulevard. American Legion meets, Armory.  
**TUESDAY, APRIL 25.**  
 Rotary club meets, Grand hotel.  
 Health of Americans, will meet Tuesday night at 8 p. m. at the home of Mrs. W. J. Jones, 102 Forest Park boulevard. American Legion meets, Armory.

**BRIDGE COLLAPSES BENEATH MACHINE; DETOUR NECESSARY**  
 [SPECIAL TO THIS GAZETTE]  
 Delavan.—Weight of a large steam shovel, which was being used by a contractor, being drawn by two large trucks down the Richmond road, caused the collapse of a 40-foot wooden, steel reinforced bridge over a creek at the foot of Muzzey hill Sunday.

As the two trucks rumbled over the wooden bridge, drawing the steam shovel, the wooden frame and steel supports were bent into a "V" and the shovel went down into the ditch. It was drawn out, little damaged.

A detour is made necessary to reach Richmond from Delavan. The detour is to pass the state school on the George Pounder road.

**EXPECT HIGHWAY TO BE AUTHORIZED**  
 Monroe.—With a majority of the members of the county board favoring completion of the stretch of concrete and gravel road between Monroe and Glarus on Highway 42 this year, it is believed, the work will be authorized at a special session, probably May 2. The work is part of the program authorized by the state legislature two years ago but held up by the board because it thought concrete too expensive. Bids for traveling about 11 miles of county highways, building bridges and doing grading and some concrete construction will be let Tuesday.

## At the Villa Rose

BY A. E. W. MASON

(Continued from Saturday.)

"Yes, we have plans for to-morrow," she said, with a very wistful note of regret in her voice, and seeing that madame was already at the door, she bent forward and said timidly, "But the night after I shall want you."

"I shall thank you for wanting me," Wethermill rejoined; and the girl tore her hand away and ran up the steps.

Harry Wethermill returned to the room. Mr. Ricardo did not follow him. He was too busy with the little problem which had been presented to him that night. What could the girl, he asked himself, have in common with the middle woman she addressed so respectfully?

"Indeed, there had been a note of more than respect in her voice. There had been something of affection, of sympathy, of understanding, of a woman's understanding of a man's heart, which he had never before experienced. He had never before experienced a woman's understanding of a man's heart, which he had never before experienced."

"Ricardo had reason to remember those questions during the next few days, though he only idled with them now."

**Chapter II.**  
 A Cry for Help.

It was on a Monday evening that Ricardo, Harry Wethermill, and the girl Celia, together, on the Tuesday he saw Wethermill in the room alone and had some talk with him.

Wethermill was not playing that night and about 10 o'clock the two men left the Villa des Fleurs together.

"Which way do you go?" asked Wethermill.

"Up the hill to the Hotel Majestic," said Ricardo.

"We go together, then, I, too, am in."

Wethermill was not playing that night and about 10 o'clock the two men left the Villa des Fleurs together.

"Which way do you go?" asked Wethermill.

"Up the hill to the Hotel Majestic," said Ricardo.

"We go together, then, I, too, am in."

## 5 HORSES ARE BURNED AS FIRE DESTROYS BARN

(By Special Correspondent.)  
 Shopper.—Fire of unknown origin totally destroyed the barn, livestock, grain and farm implements of Frank Brown, one mile west of here, between 3 and 4 p. m. Sunday. Witnesses said the fire seemed to break out from various parts of the barn at once. Efforts of the Beloit fire department were futile in saving the barn or milk house, although they saved the residence from any damage.

Five head of horses, all the harness and implements, seed grain, a cow and two calves were destroyed with the large barn, and all milking equipment was destroyed when the milkhouse was burned.

The loss, not estimated, is partly covered by insurance.

## ICE NO HINDRANCE TO SCULLING CHAMP

**Beloit News.**—Rain or shine Water Hooper of the D. C. Boat Club, sculler singles sculling champion of North America, challenger for the world's sculling title, today propelled his work boat over the ice clogged harbor in superior style and in the neighboring waters of Lake Superior in preparation for his season's program, principally for the English Henley races for which he recently made application.

The Smith-Spring-Holmes Co. Tuesday night at M. B. Church.

# POOL CONTRACTS GO OUT NEXT WEEK

Plans Made at Meeting Here to Visit Every Tobacco Grower.

Township representatives met in the courthouse here Saturday afternoon to consider and then percolate plans for circulation of tobacco pool contracts in Rock county during the week of May 1. A quick drive is to be made by a number in each township to present the contract to every grower in Rock county either accept or reject.

Tobacco growers assembled declared that unless "something is done to relieve the price" of tobacco this year, "every grower in the county is urged to hear Judge Robert Bingham and Robert C. Stone at meetings in Janesville and Edgerton at which time the pool plans, the methods used and the direct effect on the cities, villages and rural communities will be shown."

Full information will be given as to the methods of financing. Under the pool contract as soon as the grower delivers his tobacco to a pool warehouse he receives 50 per cent of the estimated value of the tobacco and need not pay any more until after necessary operating expenses are deducted in dealing more directly with the big buyers.

Representatives of the Wisconsin department of markets declare they are assured of full financial backing through the War Finance department and the bankers, who have been sold on the pool plan, say that better prices to the growers means more business in the city.

"It is a question of whether a city like Janesville is interested in helping tobacco growers," it was pointed out, "standing by 20 buyers, who have a limit set on what they can pay for any tobacco," it was declared.

In Kentucky the pool plan has been in effect since 1914 and has resulted in increased tobacco prices and increased tobacco production.

Every township is being organized by C. B. Hall, Rock county chairman.

# Lenroot Carries Waterway Message into Hostile Boston Talks St. Lawrence Route

## HEARING THROUGH CARDBOARD, LATEST FEAT OF WILLETTA

Speaking of vibrations-Willeto Higgins, state school for the blind pupil, whose developments of some senses to take the place of defective ones has made many marvel, now understands what a person is saying by holding in her hand a large piece of cardboard against which the sound waves are thrown by the vocal cords. She demonstrated this at the Rock county teachers' training school, Thursday, when members of the graduating classes of the county high schools, who plan to become teachers were entertained.

Willeto has a new name for her "ears," her portable, and amplifier with ear pieces through which she hears by catching the vibrations. The new name is "Johnny."

Probably the thing which best indicates Willeto's remarkable sense of touch, is given in the statement by her that she has read three books, of ordinary print for people with sight, by feeling the letters. Lying in bed in the dark, Willeto has "read" three books which are classics.

Speaking of it Thursday, she laughingly said that it is easier to take these books to bed than the large ones used by blind people which are written in the point system.

With Supt. Hooper, and others, Willeto went through the Gazette plant Thursday afternoon and had explained to her the process of making a newspaper—the organ which has spread her fame throughout the United States.

# FORT ATKINSON

Fort Atkinson—Mrs. Edward McGowan on Saturday gave a picnic at her home on Whitewater avenue. Those present were the Misses Anna Donkle, Margaret Merriman, White Star Taxi, Fort Atkinson-Wis. Travelers' Attention! The Janesville Gazette daily to Fort Atkinson and Jefferson. Long distance calls with reverse charges given prompt attention.

C. G. ANDERSON, Office: 1035 1/2 Main St. Phone 2-5.

# MOVIELAND

If there is any one in pictures who can look more pathetic or arouse more sympathy than Jackie Coogan we have yet to see him. One can just feel one's heart being wrunged and the tears coming by merely reading the announcement that Jackie is to star in "Oliver Twist."

The producers promise that "Oliver Twist" will be one of the screen's masterpieces, a "big" picture in every sense of the word. Every effort has been made to surround Jackie with a first class cast for this picture.

"Frank Lloyd will direct the production. Mr. Lloyd needs little introduction to the film world. He is regarded as one of the best directors in

Master Jackie Coogan.

# 1922 PHOENIX TO BE ISSUED NEXT MONTH AT J. H. S.

Work on the Phoenix, the high school biennial, has been nearly completed under the management of Francis Boos, editor-in-chief, and George Rasmussen, business manager, and indications are that the book will be out before the middle of May, one of the earliest publications the book has ever had.

All but the data concerning each student's activities, has gone to the printer. The Bradburn company of this city, and the last copy will go in Monday.

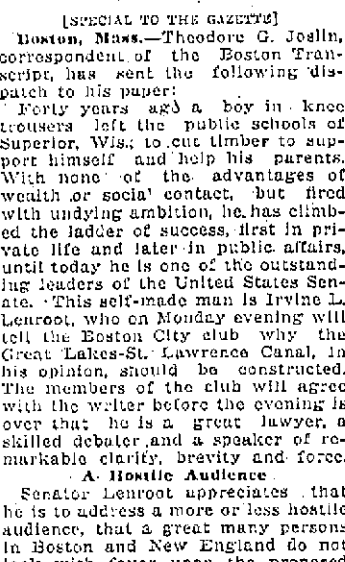

The volume this year will consist of 190 typed pages. More pictures than in that ever before, while efforts have been spent to cover each division thoroughly. The class activities will all be recorded, as well as the athletics during the past year. One of the biggest features, as usual, will be the chat department, edited by Annette Wilcox.

Another big selling feature will be announcement of the high school popularity contest, held in the fall, the winner being kept a secret until the book is published.

Five hundred books are to be published. Efforts will be made to have the annual purchase copies.

Paul Jensen is advertising manager; Stuart Hummel, circulation manager; Georgia Quirk, art editor; Isabel Stephenson, society editor; E. E. Seaman, athletic editor; and Dorothy Randall, class editor.

The book is to be a school production this year. Any money earned will go to the school, while the students will be responsible for any debts contracted.

HARRY FUCHS

Harry Fuchs, son of Rev. and Mrs. S. W. Fuchs of Janesville, has distinguished himself at the University of Wisconsin where he is now studying law after graduating two years ago in the course in Letters and Science.

His ability was recognized by the faculty when he was selected as the chief justice of the student supreme court, when it was re-organized a few months ago. His appointment to this office followed his work as chairman of the all university commission which investigated the cap night trouble.

He has taken an active part in University life, besides being a remarkable student. He became connected with the University Y. M. C. A. and now holds the important position of assistant general secretary. He is a member of the Phi Alpha Delta, honorary professional law fraternity and is associate editor of the Wisconsin Law Review, the student publication of the law school.

Fuchs graduated from the Janesville high school in 1915. His brother, Kurt, is also a student at the university. Harry Fuchs is one of the three of the nine members on the supreme court who are Janesville men. Mr. Fuchs is engaged to be married to Miss Doris Clow, of Oshkosh.

William Tilden II and Vincent Richards represent East in East-West tennis meet at San Francisco.

Every one in public life having a national vision and considering all legislation from the national rather than the sectional point of view.

Mr. Lenroot is progressive, but not radical. He has sponsored many new measures, among them woman suffrage. With regard to capital and labor he has insisted that neither shall impose upon the other, and that neither shall impose upon the public. He is held in high esteem by the members of the house and senate.

On the Waterway

Senator Lenroot, however, will deliver the most of his address to the personal rather than the personal. He is the author of the St. Lawrence waterway bill pending before the senate, has given years of study to the project and is therefore qualified to discuss it from any angle. It is his opinion that the canal will save millions of dollars in transportation rates for western farmers.

He says, as expressed by nearly every economist in the West and is shared by President Harding and former President Wilson. He says the canal is of such vital importance that the project and its development should be in favor of it. He points out that the International Joint Commission, after two years of study, has recommended the improvement and the project and is therefore qualified to discuss it from any angle. It is his opinion that the canal will save millions of dollars in transportation rates for western farmers.

He says, as expressed by nearly every economist in the West and is shared by President Harding and former President Wilson. He says the canal is of such vital importance that the project and its development should be in favor of it. He points out that the International Joint Commission, after two years of study, has recommended the improvement and the project and is therefore qualified to discuss it from any angle. It is his opinion that the canal will save millions of dollars in transportation rates for western farmers.

New England Senator Lenroot believes in interested in transportation relief and in obtaining power at a minimum cost. According to the senator, much of the power development on the waterway would be made available for New England industry. He believes that the power so furnished would mean the release of 60,000 barrels of coal annually and would eliminate the possibility of coal shortages which have hampered New England industries in the past.

He has received a report from the United States Geological Survey stating that the power could be furnished in New England for one-third of the present cost of power produced by coal, an annual saving of not less than \$2,000,000.

Stenoographer, Lawyer, Legislator

This letter, however, was intended originally to deal with the man rather than with the subject of his address. Senator Lenroot was born Jan. 21, 1869, in a small Wisconsin town. His parents were poor. He was studious and ambitious, but was obliged to leave school at the age of fourteen. He worked in a lumber camp and during his spare time studied stenography. Eventually he secured employment as a stenographer in a law office and devoted every spare moment to reading law. Later he became a court reporter, but kept up his law study and in time was admitted to the bar and opened a modest law office at Superior.

Public life attracted the senator. He became a candidate for the Wisconsin Assembly and was elected for six successive years. The members of the assembly soon recognized his worth and elected him speaker for four terms. His last election was unanimous, a most unusual compliment. He was one of the leaders in drafting and enacting the public utilities law and the direct primary law of Wisconsin. From the assembly he was sent to congress. He served in the House of Representatives for ten years and became a leading authority on the tariff, public lands, commerce and railroads.

The death of Senator Hastings, democratic leader of the republicans, resumed control of congress, created a vacancy in the upper branch. Mr. Lenroot was inclined to remain in the House, but finally announced for the senate after being urged to do so by Theodore Roosevelt, Boies Penrose, Henry Cabot Lodge, and other leading republicans. All the democratic administration questions were turned over to the personal direction of President Wilson, but he emerged victorious. During his first two years in the senate he was of great assistance to Senator Lodge in that over the Versailles Treaty. There was some doubt when he came up for re-election in 1920 whether he would win, because the republicans in Wisconsin were split into factions. National leaders of the party toured the state speaking for him, and he won by a handsome majority.

Dunker in Glass Legislation

Senator Lenroot has turned his attention to another field of endeavor. Not long ago he was not only to give the world a glimpse into her experiences as a motion picture actress, in a snappy volume of movie jokes and humorous tales. She will produce a book entitled "Seven Locations and Characters I Have Met."

# JANESVILLE BOY CHIEF JUSTICE OF STUDENT COURT

HARRY FUCHS

Harry Fuchs, son of Rev. and Mrs. S. W. Fuchs of Janesville, has distinguished himself at the University of Wisconsin where he is now studying law after graduating two years ago in the course in Letters and Science.

His ability was recognized by the faculty when he was selected as the chief justice of the student supreme court, when it was re-organized a few months ago. His appointment to this office followed his work as chairman of the all university commission which investigated the cap night trouble.

She will produce a book entitled "Seven Locations and Characters I Have Met."

# SPORTS

## Williams Pokes Out Four Homers

Kenneth Williams of the St. Louis Browns is giving George (Babe) Ruth the merry ha-ha. He came through over the week end with a quartet of home runs.

On Saturday, the Brownie outfielder attained the greatest swatting heights of baseball when he slammed three home runs into the distance and almost single handedly broke the Chicago White Sox, 10-7. He was responsible for six runs.

There was nothing fluky about the clouding of the former coast leaguer. His four boppers were clean, hard drives that would have gone to remote parts in any park.

On Sunday, he poked a terrific wallop into the right field bleachers and got three hits in three times up.

## OLD CUP DEFENDER WILL ROT ON BEACH

Key West, Fla. — The schooner Magic, which on August 8, 1870 in lower New York bay successfully defeated the American cup against the British yacht Camilla, probably will have a final resting place on the beach or a sand-bar in the harbor here.

Old, weather worn, and dismantled, the vessel which once distinguished in all her glory the marine architecture and seamanship of Yankee against those of the British, has been condemned by her owner, as useless after ending her active career as a pilot boat on the Key West bar.

## LIVE WIRES WIN

The Agenda Live Wires defeated the Xanthus Tigers in a close game, 11 to 9, on the school lot, Prairie avenue, Saturday afternoon.

Sheboygan Independents defeated Northfield 6-2.

Kelo university defeated Indiana at Toledo.

## MAJESTIC

—TODAY—  
FRANK MAYO  
—IN—  
"DR. JIM"

The Society wife of Dr. Jim Mayo was the opposite extreme and "well for" the other man when she and her husband were bound for the South Seas.

Too weak to fight, he watched her as she approached the verge of the chasm. Then came a glorious strength and a woman's soul, a beautiful woman with an invalid husband, a handsome man.

Dr. Jim, kind and true, fought the good fight and won. He won forever the love of the woman, who was his wife.

# Jeff Loop Plans 60 Games Official Opening May 7

(By Gazette Correspondent.)  
Jefferson.—The Jefferson county baseball league will open its season Sunday, May 7, according to the official schedule just announced. The season will consist of 60 games, three each week, for 20 weeks. It will close Sept. 17. Members of the league are Jefferson, Lake Mills, Johnson Creek, Watertown, Waterville and Port Atkinson.

The schedule:  
May 7—Jefferson at Lake Mills; Johnson Creek at Watertown; Waterville at Port Atkinson.  
May 14—Watertown at Jefferson; Johnson Creek at Waterville; Lake Mills at Port Atkinson.  
May 21—Pt. Atkinson at Jefferson; Lake Mills at Johnson Creek; Waterville at Watertown.  
May 28—Jefferson at Waterville; Pt. Atkinson at Johnson Creek; Watertown at Lake Mills.  
June 4—Johnson Creek at Jefferson; Lake Mills at Waterville; Pt. Atkinson at Watertown.  
June 11—Lake Mills at Jefferson; Watertown at Johnson Creek; Pt. Atkinson at Waterville.  
June 18—Jefferson at Waterville; Pt. Atkinson at Lake Mills; Watertown at Johnson Creek.  
June 25—Jefferson at Johnson Creek; Pt. Atkinson at Waterville; Watertown at Lake Mills.  
July 2—Waterville at Jefferson; Lake Mills at Johnson Creek; Pt. Atkinson at Watertown.  
July 9—Jefferson at Johnson Creek; Waterville at Watertown; Lake Mills at Pt. Atkinson.  
July 16—Waterville at Johnson Creek; Lake Mills at Jefferson; Pt. Atkinson at Watertown.  
July 23—Jefferson at Johnson Creek; Waterville at Watertown; Lake Mills at Pt. Atkinson.  
July 30—Waterville at Johnson Creek; Lake Mills at Jefferson; Pt. Atkinson at Watertown.  
August 6—Jefferson at Johnson Creek; Waterville at Watertown; Lake Mills at Pt. Atkinson.  
August 13—Waterville at Johnson Creek; Lake Mills at Jefferson; Pt. Atkinson at Watertown.  
August 20—Jefferson at Johnson Creek; Waterville at Watertown; Lake Mills at Pt. Atkinson.  
August 27—Jefferson at Johnson Creek; Waterville at Watertown; Lake Mills at Pt. Atkinson.  
September 3—Waterville at Johnson Creek; Lake Mills at Jefferson; Pt. Atkinson at Watertown.  
September 10—Jefferson at Johnson Creek; Waterville at Watertown; Lake Mills at Pt. Atkinson.  
September 17—Jefferson at Johnson Creek; Waterville at Watertown; Lake Mills at Pt. Atkinson.

# Wills May Meet Dempsey Yet as British Dicker

New York.—The possibility of Jack Dempsey and Harry Wills, colored heavyweight contender, meeting in a championship contest, in London this summer loomed Monday on the strength of a cablegram from George McDonald, English promoter.

According to Dia Dollings, English fight manager, now in New York, received the following message last night from McDonald:

"Can you get Wills to come to London to box Dempsey?"

Wills, who informed of the cablegram, announced he would be "ready to depart on the first boat," but his manager offered no comment except to say he "could see no reason for leaving yet." Dollings did not indicate whether he had sought a definite answer to McDonald's cablegram.

Dempsey, so far as is known here, has not signed articles definitely for any match in connection with his present tour of Europe. Although he has announced his willingness to meet Carpenter in a return engagement or any other European contender.

WILLIAM S. HART "WHITE OAK" A Paramount Picture

Never in recent years has a more masterful drama, of the old west, been presented to the public than "White Oak." William S. Hart's newest Paramount picture. It is while it is touching, the heart interest, the desert scenes are like visions of the past to prove the trials and perils the pioneers had to contend with in their struggle to blaze the pathway for future civilization.

Mr. Hart is at his best in this photoplay, a picturesque, commanding figure every inch a man—sterling, true and honorable despite his calling—a gambler. And he proves that his name of Oak Miller, really stands for "White Oak," for he is white all the way through.

# MANY EXPECTED TO HEAR BRYAN

"Need of the World." Commoner's Subject for Tonight's Meeting.

William Jennings Bryan, whose dedication of the University of Wisconsin and other educational institutions for teaching evolution has caused widespread excitement in the country, will speak in Janesville Monday night. He will appear at the Congregational church at 8 p. m. under the auspices of the Richard Ellis Janesville post of the American Legion. A capacity house is expected.

Mr. Bryan's subject will be "The Need of the World." In addition to touching upon present political aspects of the United States and foreign nations, he promises to talk upon evolution. It is possible he will refer to the Rev. Francis J. Schriber, pastor of the Congregational church, who recently criticized Mr. Bryan's attack.

Guest at Dinner  
The former secretary of state passed through Janesville at 6:10 a. m. Monday morning on his way to Chicago from Duluth. He had important business to transact in his

Chicago office, making it impossible to attend the day here. A copy of the Rev. Mr. Schriber's sermon was received here from Menasha, where he wished to study it for his address here Monday night.

Because of the indefiniteness of the time of Mr. Bryan's arrival here Sunday no elaborate preparations have been made for him. He will be the guest of the executive committee of the American Legion at a quiet dinner.

Tickets Sell Rapidly  
Tickets for the Commoner's appearance are selling rapidly. They will be on sale at the door. The legion announces season tickets will be honored.

Dr. Irving A. Clark will be head usher. Others will be Richard Taylor, Malcolm Douglas, Dr. L. A. Jones, Charles Smith, R. W. Oston, Thomas Sloan, James Crook, Val Mott, Leo J. Ford, H. L. Bumgarner, Frank Gleason, John Ryan and Val Weber.

The committee bringing Mr. Bryan here consists of Ralph J. Kaupis, Frank Sinclair and Dr. W. T. Clark, his son, George A. Sinclair, co-chairman.

## SEIFERT HERE FOR WATER DEPT. AUDIT

C. A. Seifert arrived in Janesville Monday for his annual audit of the books of the city water department for the year ending Dec. 31, 1921. He expects to be here throughout the week. Mr. Seifert is secretary of the association of city engineers and has been in a system of accounting similar to that installed by him in the city clerk and treasurer's office here two years ago.

## "Y" ENTERTAINS SIXTY CAMPAIGNERS

Sixty workers in the Y. M. C. A. of last October were entertained at a luncheon Monday noon. A. E. Matheson was toastmaster and talks were given by J. A. Steiner, general secretary of the association; Supt. Schools F. O. Holt, P. H. Korst, M. O. Mount, Rev. J. A. Melrose, Rev. R. G. Pearson, P. J. E. Wood, Roger Cunningham, Charles Tooton and L. F. Bennett. The luncheon was a social affair, given by the association to show its gratitude.

## USED CAR SHOW AT RINK

N. KEIFER, Mgr. RINK. Advertisement.

## THREE ORDAINED AT CHURCH MEET

Milton—Prof. D. N. Inglis, Dr. C. E. at Burdick and Rev. A. E. Whitford were ordained at the quarterly meeting of the S. D. B. churches Sunday. Memorial services were held for Mrs. O. T. Whitford and Mrs. E. B. Sauer. A sermon by the Rev. H. C. Van Horn. Other visitors who had part in the services were the Rev. G. B. Field of Baltic Creek, Mich.; the Rev. E. B. Sauer of Baltic Creek, Mich.; the Rev. G. D. Hargis of Walworth, Wis.; the Rev. S. H. Babcock of Albion, the Rev. E. M. Holston and the Rev. E. D. Van Horn of Milton Junction.

## PELL FROM A TREE

Delavan—Miss Margaret Keegan, secretary to Bradley Tyrell of the Bradley Mills, fell from a tree at Delavan Springs Sunday and sprained her ankle so badly that she will be unable to attend to her work this week.

## EAGLES' DAY NEXT SUNDAY

Hand your Application in before Friday and you can join the big Class. Phone 153. Let's Go.

## LOERKE CLUB BLANKS WOOLEN MILLS, 6 TO 0

While 100 fans looked on, the Loerke baseball team applied a coat of Whiteaway to the Woollen Mills at the fair grounds Sunday afternoon. "Ax" Peterson, former player of the Bake-Rites, pitched himself out of tight holes in three innings.

Mike Dawson was knocked out of the box in the third, Mantie taking his place and allowing but three hits the rest of the way. Crapper and Donagan featured for the winners. Cantwell for the losers.

Score by Innings:  
Loerke's Team . 001 000 11X—6 13  
Woollen Mills . 000 000 000—0 9

## USED CAR SHOW AT RINK

# COON SPEAKER AT MOOSE SERVICES

Living Ideals of Order Held Best Memorial for Departed Members.

Talking as his text the sermon on the mount, the Rev. Charles E. Coon, pastor of the Methodist church, speaking at the annual memorial services of the men and women of the Moose and Moosehatch legion, at the club rooms Sunday, made an earnest appeal to the members to exemplify the ideals of the order as a means of establishing an enduring memorial in the name of the Moose.

Charles Newton and Mrs. W. H. Taylor, presiding officers of the respective lodges, delivered the ritualistic addresses.

Vocal solos were rendered by Miss Lucille Dietz, singing "O Paradise," and Miss Roberta Van Gelder, singing "There Is No Death," both accompanied by the choir.

Numbers consisting of "Nearer My God to Thee," "Lead Kindly Light," and "Blest Be the Tie That Binds" were given by a Moose quartette.

Floral decorations consisting of lilies, roses and potted plants were contributed for the occasion by Charles Rathjen.

B. C. Baumann, junior past dictator, directed the exercises. Arrangements were in charge of a committee of which A. J. Pettit was chairman.

## FAIR WEATHER AIDS BUILDING AT SCHOOL

Warm spring weather has been a boon to the contractors having in charge the construction of the new high school. With the brick on one side complete and the top bricks for the front being laid, masons have started work on the other side of the building and on the gymnasium at the rear.

Part of the interior walls are to be of a yellowish brown brick which is being laid at the same time as the exterior. Riveters are at work on the steel girders for the auditorium, all of which have been swung in place for the overhanging roof.

The steel supports for the balcony are being laid. Supplies of the plumbers are being stored in the basement.

## JANESVILLE LAWYERS AT POW FUNERAL

Members of the bar of Rock county paid their last respects to Joel E. Coon, Beloit attorney, who died Sunday night. The subject will be "Friendship." The Methodist groups are to meet at the church, where Mr. Coon will give a talk, and there will be stunts performed.

## KODAK FINISHING

Prompt Service—Quality Work  
Leave Your Films Here  
Developing—Printing—Enlarging  
McGEE & BUSS DRUG CO.  
"Pharmaceuticals—Prescriptions—Surgical—Ray—Photography"

## HOO HOO CLUB ENTERTAINS

Elkhorn—The Hoo Hoo club of Elkhorn will be entertained at a 6:30 dinner Monday night at the home of Bert Hartwell. This is the first of a series of summer parties. Hostesses will be Leora Hartwell, Helen Greibel, and Ella Kneller. Five hundred will be played.

## MORE WEDDINGS

Applications for marriage licenses are being made more regularly with coming of spring and they will increase until they reach the zenith in June. Carl Rueter, Greenfield, and Olga Marie Wallich, Janesville, applied for a license Saturday.

## USED CAR SHOW AT RINK

April 27, 28, 29. There will be many big bargains. If you have a used car for sale enter it now.

## ST. MARY'S COP TITLE OF Church Baseball

St. Mary's . . . . . W. L. Pct.  
Methodist . . . . . 1 2 .500  
St. Patrick's . . . . . 2 3 .400  
Methodist . . . . . 3 4 .429  
United Brethren . . . . . 4 5 .444  
Congregational . . . . . 5 6 .455  
Baptist . . . . . 6 7 .464  
Presbyterian . . . . . 7 8 .469  
St. Mary's . . . . . 8 9 .476  
Trinity . . . . . 9 10 .484

Handling St. Peter's their worst defeat of the season St. Mary's, in a highly scheduled game, grabbed the championship of the church baseball league at the Y. M. C. A. Saturday night, 49 to 1. Although not supposed to play for another week, St. Mary's was brought onto the court in this game because of other arrangements that occupy the time at the "Y" this week. Four games were played with the results:

St. Mary's, 49; St. Peter's, 7.  
First Lutheran, 28; Presbyterian, 8.  
Baptist, 20; Trinity, 15.

Only one game remains in the circuit. St. Patrick's is to meet the United Brethren Wednesday at 8:30 p. m. A win for the Saints, which is expected, will place them in a tie with the Methodists for second place.

The only change in standings occurring Saturday was when the St. Patrick's club was defeated by St. Mary's.

Renard was the feature player Saturday with nine old goals for the St. Mary's.

The lineups and scores:

First Lutheran (9 b p t)

# OBITUARY

Funeral of Mrs. Louisa Niemann

Funeral services for Mrs. Louisa Niemann, who died at her home in Janesville, Wis., Sunday, April 23, 1922, at the age of 84 years, will be held at 2 p. m. Monday at St. John's church.

Rev. S. W. Fuchs, St. John's church, officiated in short services. The body was shipped to Harvard, Ill., at 10:45 and services held at 1 p. m. Burial was at Harvard.

## Martin Burbeck

Martin Burbeck, 46, a former resident of this city, died at his home in Janesville, Wis., Sunday, April 23, 1922, at the age of 46 years, following a short illness with influenza. Mr. Burbeck was born in this city and lived here until 10 years ago. He was foreman of the branch at Sioux City and worked for the concern while in Janesville.

Surviving are his wife, who was formerly Miss Katherine Doherty, this city; four children, three daughters and one son, his mother and sister, both of this city.

Funeral services will be held at 9:15 Wednesday morning at St. Mary's church. Burial will be in Mt. Olivet cemetery.

The body will be taken to the home of Charles Doherty, 411 Fifth avenue upon arrival from Sioux City.

## JANESVILLE WOMAN AT INTERNATIONAL MEET

Mrs. Percy L. Munger, Janesville, is one of the 39 women from Wisconsin, in attendance at the Pan-American conference of the League of Women Voters which opened at Baltimore, Md., last Thursday.

Two women from Janesville are also in attendance. They are Mrs. J. W. Bogg, Delavan, delivered a eulogy and included a personal message from General Pershing.

The funeral was in charge of the Harry Kelly Legion Post and a large number of soldiers attended. The funeral cortege was headed by the Holton-Elkhorn band.

Lynn West spent his boyhood in Elkhorn and at the opening of the funeral, he was in uniform. He was killed in action on Aug. 4, 1918, the same day on which his cousin, Capt. Chester West, was killed, his twin brother, Lyle, dangerously wounded.

Entered at the Postoffice at Janesville, Wis., as  
Second Class Mail Matter.

Full Licensed Wire News Report by Associated Press.  
BUSINESS OFFICE OPEN SATURDAY EVENINGS.  
Telephone All Departments 2300.

**SUBSCRIPTION RATES.**  
By carrier, 15c per week or \$7.50 per year.  
By mail in Rock, Walworth, Jefferson, Green and Dane counties, \$1.50 in advance.  
3 months \$4.50 in advance.  
6 months \$8.50 in advance.  
12 months \$16.50 in advance.  
By mail to second, third and fourth zones, \$7.50 per year in advance. In fifth, sixth, seventh and eighth zones, \$9.00 per year in advance.

**MEMBER OF THE ASSOCIATED PRESS.**  
The Associated Press is exclusively entitled to the use for republication of all news dispatches credited to it or not otherwise credited in this paper, and also to the use of the name of this paper in connection with the transmission of news by wire.

The Gazette prints freely of events when they are news. The following items are chargeable at the rate of 50 cents a count line, average 5 words to the line. Oblique and evasive of the editor's of any kind where a charge is made to the public.

### THE GAZETTE'S PLATFORM

Auto tourist camp large enough and attractive to draw to care for the thousands who will visit Wisconsin during the summer of 1922.  
Send every Wisconsin to finish the high school building. It may be used before the end of 1922. With the completion, the problem of a community center will be solved.  
Janesville needs and should have a hotel. Facilities to care for the public. That will be especially true when the high school is completed and the auditorium is available for the largest conventions.  
Finish the paving of Janesville streets as soon as there can be the necessary readjustments in taxation so as not to place a heavy burden on the people.  
Give the city a park. There is now available \$10,000 for this purpose and it should not be used for any other. Finish the city and zoning plans.  
Memorial building for World war soldiers, living and the dead—to be also an historical building.

### THE CLEAN, ATTRACTIVE CITY

This is the first official day of the city Clean-Up week.

Much of the cleaning up of the city has already been done and with a few days more of pleasant weather there will be nothing in the way of dirt to disturb Janesville or be an invitation to disease. Filth and disease are great friends. Dirt and death go around the world as close partners. The fly is the official courier. Breeding places for the fly ought to be destroyed before the week end. Here is the big job for the sanitary department and the people in accord and working in unison with health officers.

This year we hope to have thousands of tourists in Janesville on the march back and forth to the great scenic sections of the state. Here then is opportunity for advertising not often at hand. The best that we can give is a clean and attractive city. It pays several dividends each year.

"Chicago's motto, 'A murder a day keeps the police busy'."

### OPENING THE CAMPAIGN OF DEMAGOGUERY.

When he was a candidate for congress for the first time and was about to get his baptism of fire in a campaign, James T. McCreary, former Minnesota congressman, says the old and wise politicians came to him and said: "And remember that few people really think; most people simply feel. In all your speeches appeal to the feelings of your audiences, touch their prejudices; but don't waste time trying to convince their judgments."

Gov. Blaine must have received and has acted on this advice. In a speech delivered Saturday at Watertown he raved over things which he knows submitted to the light of reason and analyzed by judgment could not for a moment stand. "Appeal to prejudices and feelings," is followed by him to the letter. Once more he denounces the newspapers of the state. That is a favorite, a loved topic. Now these newspapers take on new significance to the governor. They are "controlled by the tax dodgers" and are a "shameless gang of buccanniers" are "banded together like highwaymen," a "corrupt press under pay of the interests" and more of this same sort of balderdash and billingsgate. It would not be important if it came from Blaine as Blaine, but it comes from the governor of the state and there should be some respect for that office both on the part of the man who holds it and by the people.

If Mr. Blaine prefers to drag it into the mire we must perforce stand for it.

But a lie is no less a lie because it is spoken by the governor than as though it had been given expression by some person in his following. Mr. Blaine cannot sanctify falsehood by drawing about it the sacred circle of gubernatorial authority.

Never in any state was there a newspaper press less swayed by any interest, whether it be that of the proprietor or the demagogue, than the press of Wisconsin. Because it refuses to swallow the bolshevik and radical men of destruction, fattened by these persons who "appeal to prejudices" and not to judgment, irritates the governor and carries him into depths of intemperate language which would discredit the soap box orator.

Let us get to brass tacks: If the governor has any evidence let him spring it. He is always "just going to do it." We will agree with him on one point and that is that Mr. Newberry's seat in the senate was tainted with money. But as to that here in Wisconsin we would like to know where the many, many thousands of dollars of the funds of the nonpartisan league—the organization backing Blaine and Thompson in 1920—went to and how much of it was spent in the primary and the general election of that year. Also we would like to know how much of the whiskey ring's money raised for carrying Wisconsin in 1922 is being spent in the interest of the members on the state made up in Madison by the voice of our "people." These be pertinent questions. Who is the candidate of the Wisconsin booze ring for governor and U. S. Senator?

Anyhow we hope Spring will go to grass.

Let Beloit have no booby unctious to her soul nor grow mellow in the thought she has been given a certificate of Polyanthous just because the Gazette has called attention to the drippings from the moonshine still falling on Janesville. Beloit still looks at her clive gown and exclaims tragically "Out, damned spot!" as she notes the logwood color from the "Dago Red" which is her special brand of 100% per cent potentially for cutting up the cement road. Janesville continues

## Victimizing the American Investor

By FREDERICK J. HASKIN

Washington—There are a great many ways of making money without working for it and without giving anything real for the money received. There are the time worn gold schemes and other hoary old tricks of the past which, however, the public generally never appears to become aware, because they go on and on turning in rich harvests of gold to the crooked promoters and manipulators.

Washington, rather than New York, probably furnishes the best field for this kind of dishonest work of a high grade—if that term can rigidly be applied to it.

One source of revenue has sprung from the fact that often there come to congress men of wealth who have little else to commend them. One of these men—and he comes from close to Broadway and Forty-second street—was so glibly that he paid a good round sum to unscrupulous men he met to "buy" the influence and good will of certain Washington newspapers. Needless to say, the newspapers did not know their friendship was being sold on the streets and, if they exhibited any good will toward this man, it was by saying nothing about him.

Another scheme is to secure the introduction of some resolution or bill proposing drastic action or laws of some kind. Then the alarm is sounded and money often rolls into the coffers of the originator of the scheme, who organizes a society to fend off the awful threat. It can be assumed that the congressman is innocent of duplicity. Memberships in the society are sold, probably, at a dollar apiece.

There is another case of a considerable amount of money being made out of a diplomatic appointment. When this occurred this particular diplomatic post was going begging. No one seemed to want it. In this American country, the man who ultimately made money out of the deal suggested to the wife of a certain wealthy man that he seek the appointment. Then the manipulator gave careful directions how to proceed. Diners must be given, with a carefully selected guest list. No mention must be made of the vacant post in the diplomatic corps. All of this was done. In the meantime, this manipulator, who really did have certain standing and influence here, had ascertained beyond doubt that the post would go to anyone who so much as intimated he would accept it. Naturally, the dinner meant nothing. That was just to make the thing look hard, and as if influences were at work under the surface to obtain the job. At the proper time the appointment was made. By prior arrangement the manipulator was paid \$25,000.

All these things—or most of them—are quite within the law. No criminal statute is fractured. It is just "slick" work.

There is the instance of a certain event that was to occur in a Latin-American country. Disorders were feared and only the United States could guard against this. One faction of the politicians in this country had a private representative in Washington. He sought out an obscure but supposedly influential man to help him. This man was able to ascertain quickly that the American government had made up its mind months before to take the desired action. This man had to make the job look hard, of course, and naturally reports of fancied developments to the representative of the United States country. In the fulness of time, the thing for which he had been engaged naturally transpired, and he collected his fee—or half of it. It was his frenzied efforts to get the rest that brought the transaction to light.

There is a case of a newspaperman in Washington who abused the confidence and privileges which all of them enjoy. Naturally, newspapermen in Washington often are possessors of information in confidence which would be of great value to certain corporations, if they learn it in advance of publication. A congressional investigation brought out this man's connections. He was drawing down, in retaining fees from big corporations, around \$30,000 a year. Naturally, publicity on this man's efforts made him of no further use to these corporations or to his newspaper. But he had accumulated a nice little nest egg.

To return to Latin-American, the incident related above was trifling compared to the "clean up" made by another man in Washington in much the same way. A certain one of the American republics was anxiously awaiting favorable action by the state department on an important matter. By chance, this man learned the state department had made up its mind to this course, but action would not be immediate. Accordingly, this man got in touch with the president of the Latin-American republic and made a deal whereby he would get a sum of money—said to be \$100,000—for influencing the American administration. Then this man sat tight, sending occasional cablegrams, until this large sum dropped into his lap.

Another trick is done by outsiders, men whose names are high in the business and financial world. That is planting false "news" to influence the stock market, and cleaning up on the consequent depression or inflation of particular stocks. Once it was done in this way: A member of the staff of the Washington bureau of one of the press associations was sent for, and the information given him that the oil wells in a certain rich field would be exhausted and "yielding nothing but salt water in a short time. This was the confidential report of experts, the report or was told. He was also told that under no circumstances was he to divulge the source of his information.

The reporter didn't like the sound of the tale, and while he was debating with himself in the hotel lobby, he saw one of his conferees from a metropolitan daily. He found this man had gone to the man he had just left, evidently by appointment. An hour later another newspaperman came.

The wise young man from the press association refused to handle the story. However, one or both of the other men used it, took was depressed by the rumor and presumably the crowd on the "inside," who had gone short of this stock, made a killing.

to visit Beloit as one of the unsafe and insane places where moonshine has the right of way.

What one fails to understand is why Lady Astor brought her husband along.

The greatest burden carried by business is taxation. In Wisconsin we have so much government and the commissions are falling over each other in getting through the corridors of the state capital so that we have been paying altogether too much for what we receive. This is the time to get more for the investment. Taxation is a necessary part of government but waste forms too great a percentage in the use of the taxpayers' money.

Fatty Arbuckle's gross tonnage has become excess baggage.

Don't worry; Germany has not gone so far as to trade her paper marks for paper Russian rubles.

Europe is just beginning to discover that the United States is not a regular joinder.

Just as they were about to go into battle against Senator Lodge, the Massachusetts demonstrators began to fight each other.

## JUST FOLKS

By EDGAR A. GUEST.

**THE RICH IN SPIRIT.**  
There is no door to sorrow barred.  
Grief holds contemptuous disregard  
Of pride and pomp and fortune's gold.  
And pleasures which are bought and sold;  
In this the rich and poor are kin.  
Death calls and all must let him in.

Still there are rich men in woe,  
And plainly does the difference show.  
As one with wealth may grace his board  
With food the poorer can't afford,  
So one who's richer in belief  
Has more to soothe the pang of grief.

The man of greater faith can bear  
His hours of anguish and despair.  
His lonely days and nights and weeks  
With peace which money vainly seeks;  
With a wealth of strength supply  
Which gold and silver cannot buy.

Just as the rich of purse provide  
Comforts to poorer men denied,  
So those of greater faith, in woe,  
Have drawn the greater comfort know;  
Rich of spirit, they can face  
The days of grief with nobler grace.

## ON THE SPUR OF THE MOMENT

By ROY K. MOUTON.

**WE HOPE MR. DEMPSEY UNDERSTANDS THIS, WE DON'T.**

"I know nothing of Mr. Dempsey's quality as a boxer," writes George Bernard Shaw, "but if he can play at lightning long shots with an instinctive command of the duck and counter, and on occasion, sidestep a boxer who, as the cinematograph proves, has the dangerous habit of leading off from his toes without stepping in, with the certainty of falling heavily on his nose if his adversary takes in the situation in time, Charles XII may be his Poltava yet."

**HOW MANY FATAL WOUNDS ARE NECESSARY?**

We may be sure the gallant editor's wounds were serious, even though five of them were fatal.—Editorial in N. Y. paper.

For many years the scientists have been warning everybody, young, middle-aged and old, that if they do not get a health start at the point and even, in some instances, have tried to have it abolished by law. But it has been impossible. Even in localities where the practice is severely frowned upon, considerable bootlegging has been going on. The scientists have resorted to the effect that the practice is responsible for the spread of great epidemics.

Now we read in the papers that last week there was a sort of social gathering in a home on Long Island where six young ladies sold kisses and were amped volubly by the young gentlemen. During the party a man with a heavy cold arrived and coughed constantly. Next two or three days thirty-one persons who had attended the party were taken down with the flu. But, to the surprise of one and all, not one of the six girls who sold the kisses nor one of the customers who bought the same contracted the flu. The only ones to come down with it were old married folks who never kiss anybody.

It is thus we are obliged again to give the old whistrooms of science the gate on this subject. Let it be hoped we will not have to speak to them again.

Aged musician committed suicide in preference to playing jazz. Life is tough enough without adding jazz to it.

**IF YOU'D ESCAPE THE CHAIR GO DOIL A LITTLE LYE.**

"Wife is Cleared of Man's Death by Bolling Lye."—Headline in New York paper.

Chicago lawyer declares he can prove that every man is crazy after fifty. But a lot of them are crazy after other things, too.

What we really need is wireless politics.

## Who's Who Today

**JOHN BARRETT.**  
Drying up the Panama Canal zone is the new task John Barrett is tackling. His activities will be directed toward spirituous liquors and not the canal, however.

Barrett is well known for his almost life-long efforts to cement the friendly relations between this country and the Latin-American nations.

After receiving his education at Vermont Academy, Worcester Academy, Vanderbilt and Dartmouth he taught English and served as English teacher at various schools. He then entered the diplomatic service as American minister to Siam in 1904. While at that post he won the thanks of the president of the U. S. and the king of Siam for his efforts in settling by arbitration claims involving \$3,000,000.

He was a war correspondent during the Spanish-American war. Then he served as special commercial commissioner in Japan, Korea, Philippine Islands, Siberia and India.

He was chosen to represent the U. S. at the second Pan-American conference in 1901-02 and then became commissioner general of foreign affairs for the St. Louis exposition. He was appointed American minister to Argentina in 1903-04, to Panama 1904-05, to Colombia 1905-06.

He became director general of the Pan American union January 1, 1917, and in 1920 was re-elected to that office.

He is a founder and vice president of the Pan-American Society of the U. S. The new prohibition director has written several articles on Pan-American, Asiatic and Latin-American subjects. He was born in Grafton, Vt., November 28, 1858.

## LOOKING BACKWARD

**FORTY YEARS AGO**  
April 24, 1882—The first meeting of the new common council was held last night at the City hall. Mayor T. T. Croft and Aldermen Cox, Daly, Fitzgerald, Field, Lennart, Murdoch, Robinson and Valentine were present and Newman and Potter were absent, being out of the city. The mayor gave an address, showing the city's financial condition and plans for the coming year.

**THIRTY YEARS AGO**  
April 24, 1892—The trial of Dr. Harry Scudder in Chicago for the murder of Mrs. Dunton a few months ago, will go over to the May term. The Duntons were former residents here. The objects of the murder has been shown to be Mrs. Dunton's money, left by her will. The two stone quarries in the city are being used a great deal at present.

**TWENTY YEARS AGO**  
April 24, 1902—At a meeting of the stockholders of the Janesville Cotton Mills at night, W. H. Wheeler, Beloit, was given a 60-day option on the lower mill, in Monterey for \$30,000. There is little doubt but that he will keep the place, where he expects to manufacture electrical appliances. This mill was closed a year and a half ago, after running for almost 20 years.

**TEN YEARS AGO**  
April 24, 1912—Daniel Wilkins and Thomas McCuen were given positions today as district foremen for streets by Street Commissioner C. R. Milmore. This is one of the first appointments he has made, since going into office a week ago under the new form of government.

**LOVE CASTS OUT FEAR**  
There is no fear in love; but perfect love casts out fear; because fear hath torment. He that feareth is not made perfect in love.—1 John 4:18.

## Personal Health Service

By WILLIAM BRADY, M. D.

Noted Physician and Author

### JOINT JOINTS

This is the time of year when Janesville has reason for dragging his feet and making so much noise when he walks across the floor. He still has on his winter underwear. But some people are involuntarily noisy in walking; some achieve a loud ambulation; but this consultation is about those who have arthritic (not arthritis) crackings, clackings, snapping, grating, squeaking and other ostentatious accompaniments thrust upon their merest stirrings.

First, the gentle creaking or squeaking noises which annoy the subject himself; but no one else, sometimes associated with a sense of weakness or tiredness in the joint of joints, commonly the knee joints, are caused by roughening or thickening of the synovial lining of the joint as the ultimate result of some past inflammation or injury of the joint. There is nothing gained by applying any medication or liniment for such trouble. Sometimes the subject finds comfort or relief by wearing woven elastic knee caps or elastic bandages about the joints.

Clicking or snapping sounds, proceeding usually from the ankle joints of fast-growing and perhaps muscularly undeveloped girls in their early teens, are attributable to the tearing of the ligaments of the knee joints. The remedy is more vigorous muscle tone which is to be attained by proper daily exercise.

Another tapping sound is due to the sudden slipping of a tendon through a sheath which is thicker at one place, in so-called trigger finger. If such trouble persists over six months it may be relieved by incision of the sheath.

A marked overgrowth (hypertrophy) of the synovial fringes, especially in the knee, often produces a disabling derangement of the joint. The victim of the condition experiences a sudden clicking or catch in the joint when going upstairs or even turning in bed, and the joint becomes locked; releasing it produces severe pain and often the experience is followed by inflammation and swelling. For relief, the patient is caused by a thickened and more or less movable mass of the synovial membrane getting pinched between the heads of the bones forming the joint. In some cases these masses are fairly free bodies slipping about in the joint cavity and causing these disabling attacks at irregular intervals. Although such measures as adhesive plaster dressing, or large joint support for the joint may tend to prevent the painful locking, there is no permanent relief short of surgical operation of the joint and removal of the floating or loose bodies.

The cartilages of the joint are loosened as the result of some severe sprain or injury. A sense of grating or crackling, sometimes audible to the subject and

others nearby, but more often felt by the subject or an examiner, accompanies many conditions in which eroded or roughened bone surfaces touch (as in a recent fracture). This occurs in most cases of osteo-arthritis—bone and joint inflammation. A similar sensation is felt over tendons when the tendon sheaths are inflamed and the joint is moved.

**QUESTIONS AND ANSWERS.**  
Carter, Calumet and Wau.

Question—Do garters worn below the knee improve circulation?

Answer—2. Do garters worn below the knee improve circulation? 2. Do garters worn on the soles of the feet necessarily improve circulation? 3. How may the wax in the ears be gotten rid of? (S. K. K.)

Answer—1. Not if very wide garters are worn (two inches wide) loosely. 2. No. 3. The wax or cerumen is a natural secretion and should not be interfered with normally. In cases of hardening and accumulation of plugs of wax which produce deafness, noises in the ears, but the cotton or other reflex disinfectant, it is wise to have the wax removed by the physician and it is dangerous to insert any object in the ear in an effort to remove wax.

**The Human Filter.**  
Question—Trace involves a contracted habit of drinking six glasses of water every morning, at intervals before breakfast, at ten or fifteen minutes usually in the third glass I dissolve a teaspoonful of soda. In the interesting exercise ten or fifteen minutes later I have increased the amount of water to twelve glasses. I find it takes about an hour and a half to get through the alimentary canal. Before breakfast I drink the juice of an orange and a lemon combined. I am 49 years of age and in good health. Some physicians say soda relaxes the lining of the stomach, but it seems to agree with me. What would you say, Doctor? (J. B. T.)

Answer—Years is an elaborate and expensive plan for keeping well, but I see nothing wrong with it. About a pint of water in the morning is generally sufficient and the soda is not necessary, though harmless so far as I can learn.

**Query But Substantial.**  
Question—Being an old reader, I have been most interested in articles bearing the signature of Dr. William Brady. I am wondering whether this Dr. Brady is a myth. I read an article on exercising and a request for a two-cent stamp, but up to the present have had no reply. I think I should have had the courtesy of a reply. (H. T. H.)

Answer—The old doctor is a little queer, but perfectly substantial, and if readers or correspondents will try to rub the right way he will generally answer them. I am human, but don't send him postage stamps, or blank envelopes with stamps on, or coins, or anything else. He will reply, if well, always, in a stamped self-addressed envelope for a reply.

Dr. Brady will answer all signed letters pertaining to health. Only letters of general interest are answered in this column, but all letters will be answered by mail if written in a stamped self-addressed envelope is enclosed. Address Dr. Wm. Brady, Gazette.

## ASK US

(Any reader can get the answer to any question by writing The Gazette, c/o Fredrick J. Haskin, Director, Washington, D. C. This offer applies only to questions of general interest. The director cannot give advice on legal, medical, and financial matters. It is not a substitute for professional advice. Send your questions in a stamped self-addressed envelope. Give full name and address. All replies are sent direct to the inquirer.)

**Q. What size balloons would it take and how many to lift a weight of 20 pounds? E. H.**

A. The air service says that it would take 285 feet of pure hydrogen at standard temperature and pressure to lift 20 pounds. A balloon, large enough to hold this amount of hydrogen, would have to be 8 1/2 feet in diameter.

**Q. Who holds the record for most runs in one baseball game? C. L. T.**  
A. Danforth of the Evelyn Club, Pa., established a new record when he made five home runs in five times at bat in a game played July 16, 1921.

**Q. Where and what is the Portal of Peace? D. V. H.**

A. The Portal of Peace is a massive concrete structure in the form of a gateway. It is located at Blaine, Wash., and was dedicated Sept. 5, 1921, in honor of the peace between the United States and Canada, which had lasted for more than 100 years without a break. The memorial, which cost \$40,000, stands 100 yards from the international boundary where the 49th parallel meets Boundary Bay.

**Q. What is the "Far Eastern Question"? K. D. S.**

A. The complex problems involved in the rise of Japan and the awakening of China and their relations to the great European and American powers are known in international politics as the Far Eastern Question.

**Q. What is the "Intelligent Quotient"? C. P.**

A. The intelligence quotient of a feeble-minded person is found by dividing his mental age by his actual age. Thus a child of 12 with the intelligence or mentality of 9 would

## How About Your Milkman?

Does he have his herd inspected? Does he disinfect his bottles with boiling water or steam? Is his milking done by the old, dirty, dangerous method, or is it done in the modern, sanitary way? Milk is such a universal food that these of the most importance to everyone. They are doubly important if you have children.

Dangerous, germ-laden milk may look all right, smell all right, taste all right, but it may be full of bacteria about your milkman, not guess.

To assist in this important business, our Washington Information Bureau will send you an of readers a copy of the booklet "All About Milk," prepared by Professor Roscoe H. Furness, recognized as an authority on the subject. If you wish a copy, clip out and mail the coupon, enclosing two cents in stamps to pay postage. Be sure to write your name and address clearly on the lines of the coupon.

Frederic J. Haskin, Director, The Janesville Daily Gazette Information Bureau, Washington, D. C.

Enclose herewith two cents in stamps for return postage on a free copy of the Milk Booklet.

## HOROSCOPE

The stars incline, but do not compel.  
MONDAY, APRIL 24, 1922

Contrary planetary influences are potent today, according to astrology. While Jupiter exercises kindly power, Saturn, friendly, Saturn and Venus are adverse.

It is a day primarily favorable for all lines of trade and should assure unusual activity in all parts of the country.

The stars are especially helpful to all who advertise or use the newspapers to promote trade.

There is an auspicious sign for making contracts, executing deeds and entering into business agreements of every sort.

Saturn is in a place, menacing to labor interests and there is the forecast of serious industrial activities.

Farmers will have cause for discontent at this time but they may expect many crops to be extraordinarily good this year.

The lunation of this month, falling in Taurus, well aspected by Uranus and Venus, is exceptionally good for Ireland, which should have a period of peace and quiet during the summer.

Chicago comes under a rule making for undertakings of commercial magnitude.

All the signs seem to indicate an access of peace consciousness on the part of the Anglo-Saxon population of this country and new problems seem to threaten several states.

Increase in the number of beautiful women is foretold by the stars, who declare that America will outshine all nations, owing to the mixture of many types of humanity.

Nepere in the fifth house is read as exceedingly sinister since the planet in this aspect is held to encourage vice and immorality.

The summer is to be distinguished by many sudden changes of temperature and is likely to be exceedingly trying to residents of cities.

Newspaper Syndicate.  
(Copyright, 1922, by the McClure

have an intelligence quotient of 3-12 or 75.

**Q. When was the Federal Trade Commission established? F. J. W.**

A. The Federal Trade Commission was created by congress by the act of Sept. 26, 1914.

## Abe Martin

Belted models in the new checks and tweeds. Both light and dark effects. Strong, durable Suits that are made to stand hard treatment. They're stylish and good looking. Boys like them—Mothers like them.

HE NEEDS SOMETHING. Taylor—"An American genius has invented a chair that can be adjusted to 1,000 different positions." Smith—"Well, I must see it if I can't get one for my small boy to sit on when he goes to church."—Answers.

## Embodying An Ideal of Service

**I**DEALISM combined with practical efficiency are the motives inspiring the 25,000 men and women who make up the personnel of the Standard Oil Company (Indiana).

The ideal of production is to create petroleum products as nearly perfect as is humanly possible. The expression of this ideal in tangible form has resulted in a vast and superlatively efficient service to 25 million people in 11 Middle Western States.

To perform this service our complete refineries are working 24 hours every day.

At the Whiting Plant alone the Standard Oil Company (Indiana) employs more than 3,500 people, and has an annual capacity of

(Continued from Yesterday.)

His mother was more than ever ill at ease before his success; more than ever appreciative of the comforts he had given her; even more than at Oakmont appalled at the prospect of change. She wouldn't go east. She couldn't very well, she explained; and looking at her tired figure in the great chair before the fire which she seldom left, he had an impulse to shower upon her extravagant and fantastic gifts, because before long it would be too late to give her anything at all. The picture made him realize how quickly the generations pass away, drifting into the other world, leaving the old folks like himself, contented and lazy, waiting for George to gladden them; but George gladdened them indifferently; he only wanted to hurry to his journey's end.

At the Tudor house Betty ran out to meet them, and Lambert grinned at George and kissed her, but evidently it was George that Betty thought of. "You're late," she pointed, as if she had heard the question that repeated itself in his mind, to the house; and he entered, and breathlessly crossed the hall to the library, and saw Sylvia—colorful, impetuous, and without patience.

She stood in the center of the room, her eager arrested attitude, having perhaps restrained herself from impulsively following Betty. George paused, staring at her, suddenly hesitant before the culmination of his great desire.

"It's been so long," she whispered. "George, I'm not afraid to have you touch me." You mean I must come to you.

He shook off his lassitude, but the wonder grew, for he went to her and her curved lips moved beneath his, but he pressed them closer so that she couldn't speak; for he felt, encircling her in a breathless embrace, as his arms held her, something thrilling and rudimentary that neither of them had experienced before; something quite beyond the comprehension of Sylvia Platter and George Morley, that belonged wholly to the perplexing and abundant future.

THE END.

## Tinker Bob

Stories by Carlyle H. Holcomb

Well, Tim must be getting anxious to go back to his mother," said Tinker Bob to Silky while the Little Elephant was away to the river getting a drink. "By that time I think it will be time for us to be getting back to the Great Forest. I feel that the folks will be anxious to see us. Think of it. We have been away from Major Polo Cat a long time and there is Jerry the Jay. I want to see Jerry if he is middle-aged."

Then Tim came back from the river. "Tim," said Tinker Bob, "don't you think we ought to go back to your mother?" She will think I have run away with you never to return.

"Yes," said Tim. "I think we should go back and tell the tribe what we have seen on our journey to the doctor. My nose is all right now, and he gave it a twist which nearly sent Silky sprawling on the ground."

"All right if you think we should go we will start now," said Tinker. He looked around to see if there was anything he had forgotten, but there was nothing. He was just a little sorry to leave all of those wonderful creatures of the Jungles; don't you get without a King. He thought how nice it was that the great forest creatures like Tinker Bob and Jack the Rabbit, could have a King to tell their troubles to. Everyone likes to have someone to whom they can go in times of distress. But these poor creatures of the Jungles had to always tell the ruler.

"Why can't I make you the King of the Jungles?" asked Tinker and he and Silky climbed to the back of Little Elephant.

"What make me a King?" exclaimed Tim. "How could you make me a King? I don't know what to do with myself, how could I do things for others?"

"You know how to be good to the creatures of the Jungles, don't you?" asked Tinker Bob as he lifted Tim's ear to make sure that he heard.

"Sure, I know how to be good to everybody," said Tim, throwing his trunk from side to side.

"Well, that's the only thing that makes a good King. If you will treat everyone to those folks like you would like to have them treat you, they will only be too glad to have you.

"You know how to be good to the creatures of the Jungles, don't you?" asked Tinker Bob as he lifted Tim's ear to make sure that he heard.

"Sure, I know how to be good to everybody," said Tim, throwing his trunk from side to side.

"Well, that's the only thing that makes a good King. If you will treat everyone to those folks like you would like to have them treat you, they will only be too glad to have you.

"Sure, I know how to be good to everybody," said Tim, throwing his trunk from side to side.

## CASEY THE COP

## BEAUTY CHATS

by Edna Kent Forbes

Doesn't it sound ridiculous to say that there is a fashion in eyes? Strange as it may seem, there are. When I was in London I went out to the historic palace of Hampton Court where in the lovely long paneled galleries hung the portraits of famous men and women who once walked and flattered and possibly wondered what their fate would be as they passed up and down before the leaded windows. A group of the Ladies in Waiting at the court of Queen Elizabeth hung there. Do you remember how charming Peppy thought them when he spoke of them in his diary and how pleased he was to be sent to have lunch with them when he went out on business to see the King? There they all hang and no wonder Peppy was pleased to dine with them!

They are all very beautiful, but all look as much alike as so many twin sisters. Eyes in those days were supposed to be very large and very vivid. The eye, in fact, was usually as large as the mouth. If it wasn't.

Escorted Rhubarb and Rice. Watercress with Thousand Island Dressing. Dates. Milk.

Dinner. Stuffed Baked Peppers. New Potatoes. Spring Salad. Hot Buttered Buns. Peaches with Whipped Cream.

**TODAY'S RECIPES**

**Eggs in Nests**—Separate the yolk and white of an egg; add pinch of salt, a dash of oil and beat until stiff. Lightly on a piece of toast, make a depression in the top, slip the yolk into it and bake in oven until the white is firm on top. Season, garnish with parsley and serve hot.

**Stuffed Baked Peppers**—Stuff large green peppers with finely chopped ham, celery, onion and mayonnaise. Bake in a shallow pan of water for half an hour.

**Spring Salad**—Slice into very thin rings two red radishes, one small yellow carrot, one stalk of tender celery and a little green onion. Mix with French dressing and serve crisp and cold.

**Butterfly Salad**—Arrange a slice of canned, cored pineapple on each plate, cut the slice in two, place the rounded edges together. Sprinkle over with chopped cherries, dates or any other garnish convenient. Make body of butterfly with one asparagus stalk and top sprinkled with paprika. Serve on lettuce with dressing.

**HELPFUL HINTS**

**To Renew White Window Shades**—Place your shade flat on a table and remove dust. Get a bottle of white shoe dressing and with a sponge apply it evenly across the width. Dry thoroughly. The time you get to the other end of the shade it is dry and ready to hang up right away. This is very effective and inexpensive.

**Grease New Sweet Potatoes before baking** and they will be nicer and not so dry and hard.

**To Remove Spots From Silk and Woolens**—one-quarter cup of salt to a quart of water will work wonders; and best of all, will not leave the objectionable ring that is so hard to remove.

**Cure of Blemishes**—Use common household ammonia in the water with which you water your begonias and you will not be bothered with bugs in the dirt. Use one teaspoon to a quart of water about once a week. This is also very beneficial to all foliage plants.

**To Remove Chewing Gum from walls**—good take common kerosene (kerosene) and rub the spot in it. This will take the gum out without harming the material.

**To Revive Flowers**—Flowers which look hopelessly wilted can be revived to a surprising degree in the following manner: Fill vase with fresh water and put flowers in it. Put the shears underneath the water and snip off the stem of each flower. Do not lift out into the air again. Maiden-hair fern which is so beautiful but so perishable can be made to live for days after being picked if the ends are sealed over by holding over a flame then placed in water. Roses should be placed in water during the night up to their petals or laid flat in a bathtub of water.

**Listen, World!**

By ELSIE ROBINSON.

Will you let me come close to you tonight. I've cry late as I write this and it isn't "happy." I'm talking to you as I'd turn to an old friend. It has been a hard day. The Pain and Despair of someone else, came and sat by my desk and poured at me, and I managed my own Pain and Despair. For I long ago proved, them to be a pair of old crooks. But the Pain and Despair of others leave me puzzled and hurt. And I'm going to tell you what I said, and I wish you'd write and tell me if it was all right. I'd so want to help her.

I told this to the One Who Came: "Where's the religion about what I'm going to say. Personally, it bothers me to receive essential facts all wrapped up in sentiment or creed. I want my truth straight. It's as commonplace as bread and butter—and on just the same practical plane. It's only a law of healthy, happy life like breathing through your nose is a law of a happy life."

I believe there's a cure for all your trouble. I believe that I've been in trouble. I've felt my grip

go out like a tide and not come back. I was a derelict and the only thing I

It's there if you will reach for it.

had left was my temper. But I had enough of that so I didn't like the looks of me. So I figured out that if there was air and sunshine and water provided for the nourishing and rebuilding of the tissues of my body, there must also be provision made for the rebuilding of the tissues of my spirit.

"Mind you, I'm not classifying sprains, 'immortal souls,' but as something fundamentally incorporated in you like your funny bone or your tonsils. I don't know whether my spirit will last forever, but I want it comfortable while it's inhabiting me. So that's why I dug around until I found that idea."

"It wasn't a 'message from on high.' It was just a common sense hunch—and I bet on it. I said to the shadows: 'Somewhere there are reserves of strength and humor and hunger to live. I need 'em. Give

## Heart and Home Problems

BY ELIZABETH THOMPSON.

Letters May Be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: Every spring my hair comes out in quantities. I suppose this is only natural. Kindly tell me what to do so that the hair will come back as rapidly as possible.

H. H. R.

More necessary even than washing, is airing the hair in summer, when no matter how oily the scalp may be, it should not be shampooed often than once a month. As to the airing, a woman whose tresses are thick should never fail to do them in two braids at night. To twist them on the head and pin them there is to invite thinness. One braid is better than that, but the scalp gets no refreshment even then; but by making

separate the people from the books, as if printed volumes were more precious than an enlightened citizenship. Repose close the stairway to visitors, and in the reading room stands a heroic female figure in marble, with one finger on one lip, conveying to the few intruders a delicate intimation for silence.

Once the neighborhood in which stands this library was aroused by a particularly bold robber, and police and detectives were alert to catch the thief. Sentinels were placed in trains and train sheds and a net was drawn through all likely hiding places; but without avail, for the robber escaped. A year later he was captured in a distant state, and was put in the questions as to how he evaded such a thorough search.

"It was dead easy," he explained. "I spent every day in that library with the marble lady."

In a western city there is a library in a massive building which can hardly be described as a crowning work of democracy. Thick walls

two braids ventilation may be secured. Preparatory to the airing a part should be put through the center, from forehead to the nape of the neck, and each hair then brought over the ear, in order to leave the middle of the head free. The braids should be loose.

This is not to be done until a thorough brushing and airing of the locks has been given. For this treatment a long bristle brush should be chosen, and the hair divided into strands. Each of these, taken separately, should be brushed, brushing by placing the tips of the bristles on the scalp. The brush must then be drawn through the locks down to the ends. This should be repeated several times, and each strand placed out of the way as it is finished.

The instant a sour odor comes, washing must be done. Only shampooing will cleanse the hair, and nothing is more disagreeable than the effect of perspiration. If there is a tendency to oiliness, and because of warm weather an odor comes quickly, I think an egg shampoo is the best. For this hair eggs are beaten, a tablespoonful of water being added to each egg. For an ordinary head of hair two are enough. These eggs are rubbed into the scalp and over the hair, no soap being used. Should there be the least trace of perspiration afterward there may be a final rinse in soda water, using a level teaspoonful of bicarbonate to a basinful of water.

This is Gingham Week

**J.M. BOSTWICK & SONS.**

This is Gingham Week

**THIS IS NATIONAL GINGHAM WEEK**

An entire week given to the display and sale of Dress Gingham. Our new 1922 assortment comprises the newest weaves and patterns in Domestic and Imported Gingham ready to be made into cool and comfortable dresses for the warmer days to come. And not for several seasons have we been able to offer Gingham of the superior quality at such low prices. We invite you to see the wonderful showing.

27-inch Gingham as follows: Toile du Nord, Bates, Red Seal, Red Rose of Lancaster and York Gingham.

32-inch Gingham as follows: Bates' Zephyr, Renfrew Zephyr, Ivanhoe Zephyr, Anderson Scotch Zephyr, Imperial Chambray, Gilbrae Zephyr, and Jacquelin Zephyr.

36-inch in Peter Pan Gingham in all plain shades and printed Gingham to match.

In Tissue Gingham we have the following:

33-inch Organdie Finish, Imported Scotch Tissues.

32-inch Renfrew Tissue.

32-inch Gaze Marvel Tissue, Silk and Cotton.

36-inch Lorraine Egyptian Tissues.

36-inch Lorraine Silver Spray.

All the new designs and colors of the new season are shown.

One Lot of Check and Plaid Gingham, 27 inches wide, new Spring styles; extra good quality; very special, yard..... **21c**

One Lot of Ivanhoe 32-inch Zephyrs, plain checks and plaids, very special, yard..... **42c**

One Lot of 32-inch Imported Scotch Zephyrs, values 65c to 75c yard; broken lot to close, special, the yard..... **49c**

Our Entire Stock of Imported Scotch and French Gingham, 69c and 75c values; special sale price, yard..... **65c**

MAKE OUTLINE PICTURES OF YOUR FRIENDS

A SILHOUETTE PORTRAIT

Years ago before the camera was invented, this way of making pictures was very common. Now any clever boy or girl can make pictures of his or her friends. All that you need to do is to fasten a piece of paper on a wall; put the sitter near it. Place a good light at the side so that it throws a shadow of your friend on the paper. The sitter must sit perfectly still. If necessary a support may be made to hold the head still while you draw the outline.

## LUTHERAN GROWTH GREATEST OF ALL

One-Fourth of Year's Immigrants of That Faith—Church Facts.

One fourth of all immigrants permitted to enter the United States during the fiscal year 1921-1922 will probably be Lutherans, says the Lutheran World Almanac for 1922, published by the National Lutheran Council, 437 Fifth Avenue, New York City. Uncle Sam's doors will be open to only 345,783 newcomers during the year, of whom \$7,665 will likely be Lutherans, 72,399 non-Lutheran Protestants and the remaining 185,719 Greek and Roman Catholics. Figures are based upon the percentage of religious population in the mother countries permitted to send homeseekers to our shores.

**Religious Statistics.** The 1921 Lutheran World Almanac, which appeared last year, was the first attempt of an American church to present authoritative international religious statistics on an extensive scale. The 1922 volume revises much of the material in the former one and introduces much that is new.

In the United States, actual church members of the Lutheran church are 3,677,850, of whom 2,471,717 are on the active confirmed membership lists. It is estimated that the total number of Lutherans by baptism in this country is between 15,000,000 and 17,000,000. The 15,012 congregations in the United States are served by 9,655 ministers in many cases one minister serving several country churches. Lutheran Sunday schools numbered 1,016,651 children during the year, and maintained a teaching force of 94,540. 2,672 teachers were employed by the parochial schools to take care of 137,944 scholars. 13,214 Lutheran young men and women were in attendance at higher institutions, while the number preparing for the ministry and other church work was 2,658.

There are 32 Lutheran publishing companies in the United States, 16 official and 16 independent. Here are published 296 magazines and papers. The American Lutheran church has 287 ordained missionaries in foreign lands, and is maintaining mission stations in China, Russia, Japan, Persia, Africa, India, South America and Oceania. During the year various groups in Australia have combined to form the United Lutheran Church in Australia with full autonomy and growing strength. The United Lutheran Church in China has also been organized to cover the provinces of Hebei, Hunan, and Hupeh.

Financially the church is making gradual progress, the total valuation of church property being \$180,008,943, with an indebtedness of but \$8,942,722. Throughout the world the church of the Lutheran denomination is growing, all others by two to one. Of these the vast majority are scattered through every nation in Europe.

### \$6,000 BRICK HOUSE, FOUR NEW GARAGES ARE PLANNED HERE

Otto Gruebe has taken out a permit for building a \$6,000 brick veneer dwelling, 28 by 32, at 908 Prospect avenue, one block east of Milton avenue intersection. Severson & Johnson are the contractors.

Minor building permits have been issued, as follows:

Garages—W. C. Graves, 210 Clark street; Henry Meyers, 614 South Jackson street; Gus Baumann, 922 Mineral Point avenue; Lee Lotherman, 112 Oak Hill avenue.

Addition—J. F. Ward, 527 North Chatham street; Adolph Honisch, 412 South Pearl street; Richard Hardon, 758 South Main street.

Remodeling—Mrs. Cora Dickinson, 513 Oakland avenue.

Repairs—D. S. Kane, 1514 Ravine street.

### 11 NEW CHAIRS FOR BELGIAN COLLEGES

Drumsticks—Eleven university chairs will be created by the University Foundation established out of the funds left over when the Commission for Relief in Belgium ceased its operations. The professors elected to these chairs will receive an annual salary of 25,000 francs, with the stipulation that they must devote themselves entirely to the teaching of scientific subjects. A reduction is contemplated in the number of American students to receive monetary awards to enable them to pursue their studies in Belgium. There will be an increase in the number of Belgian students invited to the United States, and during 1922 they will receive a special allowance of \$200 to enable them to meet the high cost of living.

**CLERK SEKS BIDS**  
Bids for building cement sidewalks in 1922, and also for furnishing city cars with gasoline and oil, are being received by City Clerk E. J. Sartell up to 5 p. m. May 1.

## LONGEST WORD IN ENGLISH LANGUAGE HAS 24 LETTERS

The longest word in the English language is disestablishmentarianism, according to Frederic Haskin of the Gazette Information Bureau at Washington, answering a question of a Gazette reader. The English language has far fewer long words than other languages. German words are sometimes 100 letters in length. Mr. Haskin was asked to explain the following quotation, "Soullessly avoid polysyllabic profundity, pompous prolixity, pituitous vacuity, ventricularly vapidly. Shun vulgar jocosity, and pestiferous profligacy, obscuring or apparent." In plain language, he says, it means "Speak plainly."

Another Gazette reader was informed that the author of "The Idiot's Guide" was Francis Peacock, and that Stephen Phillips' poetic drama "Patria and Francesca" is based on the famous passage in "Il Purgatorio," Canto V, written by Dante.

A Rock County woman has in her possession a copy of a two page paper printed in Ulster county, N. Y., which contains an obituary of George Washington M. Haskin gave her information as to where she could find how valuable the paper is.

Dogs so often have perfect teeth, better than those of humans, well known for because of their diet, which contains little acid. Other miscellaneous information issued by Mr. Haskin was that radium is valued at \$100,000 a milligram.

Besides the 11 questions answered by Haskin, 20 booklets on various subjects were sent out.

### CALIFORNIA LIKES THE WISCONSIN U.

Madison—The influence exerted by the University of Wisconsin outside of the university walls in educating people of the state through extension training, impressed members of the California delegation which just completed an inspection of the institution.

In a statement broadcast by wireline telephone Saturday, Dr. Elwood Mead, head of the delegation, said that it would take back to the legislature and governor of California many ideas and suggestions that will enable them to deal more effectively with the problems of their state.

"Both California and Wisconsin have taken a lead in creating better opportunities for men of moderate means to become farm owners, the problem created by the area of decreasing land farmed by tenants," he said. "The growing difficulties of men of small means to own the land they cultivate cannot long be ignored."

"No great democracy can be built on tenancy. Whatever needs to be done in the way of thought, effort or expenditure must be done to keep this a land owning country, and Wisconsin and California are the two outstanding examples of effective action to accomplish this end."

Financing the church is making gradual progress, the total valuation of church property being \$180,008,943, with an indebtedness of but \$8,942,722.

Throughout the world the church of the Lutheran denomination is growing, all others by two to one. Of these the vast majority are scattered through every nation in Europe.

## 146 EXAMINED IN CLINIC TRUCK TOUR

First Week of Innovation Proves Success—This Week's Program.

Good health is moving on wheels under the power of Rock county. The child welfare motor truck of the Wisconsin department of health is having excellent success in the three weeks tour.

Last week there were 146 children under school age examined by the nurses under the direction of Dr. Blanche Horner. Their report shows only 36 of the children were "perfectly normal." There were 71 examinations made in Evansville, 21 in Magnolia and 54 in Footville.

The defects noted among the babies and children were as follows: Underweight, 19; overweight, 19; with teeth defects, 19; with tonsil troubles, 31; needing eye attention, 4; defective hearing, 4; skin trouble, 12; lung trouble, 22; mainly an after effect of the "flu"; deformed bones due to rickets, 8.

The tickets are the result of improper nourishment, which can be overcome by increased use of milk products.

Mothers displayed great interest in the health truck, coming for miles to have their children examined.

The trip this week will be in Newburg and Clinton. The truck during the week of May 1 will follow this schedule:

May 1-2—Johnstown town hall; Lee-ture and movies in Johnstown Center town hall 8 p. m. Monday.

May 3—Lima Center, with truck stationed at school house from 9 a. m. to 5 p. m.

May 4—Milton Junction, with truck at the Masonic hall. Lecture and movies night of May 5 during meeting of parent-teachers association.

May 5—Fulton, village hall, from 9 a. m. to 5 p. m.

### TRAIN 21 DAYS LATE; NEW RUSSIAN RECORD

Moscow—Americans who came when trains arrive late at their destination should come to Russia, and learn patience. The Tashkent express has just come in 21 days late, a new record even for Russia, where trains are often ten days behind time.

The locomotive of the Tashkent express broke down in the Ural mountains and the train was stalled there three weeks until it could be repaired.

Sir Benjamin Robertson, an Englishman who had been on an inspection tour of the famine districts in the Volga and who was a passenger on the delayed train, was informed that 25 passengers died of typhus, cold and hunger during the delay.

Teacher in a Janesville kindergarten—"Well, children, what shall we do today?"

Five year old—"Let's go over to the park and hunt eggs."

## Swiss Soprano of Monroe to Be Here, April 28

Appearance here of Miss Early Jenny, mezzo soprano of Monroe, promised some months ago after an appearance before the Community chorus, will be made Friday night, April 28, at the Congregational church, according to an announcement made by her manager and brother, Charles Jenny.

Miss Jenny came to America last winter from Switzerland. In her native country she was a pupil of Madame J. Durigo, considered one of Europe's best teachers. Madame Durigo speaks highly of the quality of Miss Jenny's voice, and predicted a bright future for her when she left Switzerland.

Friday's program will consist of songs in English, Italian, French and German and Swiss, by such famous composers as Brahms, Franz Schubert, Handel and Saint-Saens.

Miss Jenny, since coming to this state has appeared in a number of concerts, one of which was at Madison before a university organization.

City Treasurer William J. Lennarz and City Clerk E. J. Sartell are working together in an effort to bring about the payment of some \$8,500 delinquent personal property taxes by May 20. Eight thousand dollars of this amount is delinquent from this year's tax roll, while the balance, \$500, is from the tax roll of last year.

Notices will be mailed out Tuesday to everyone who has not paid. The delinquents will be given until May 20 to pay the tax, with penalty and interest added.

It is proposed to start court action against all those who have not paid by that date, the officials stated. If necessary, property will be attached and sold to pay the bills.

Under the state law, the city is required to collect delinquent personal property taxes, while it is up to the county to collect assessments against real estate that are not paid by March 15.

**SUMMER CAMP FOR  
GIRLS TO BE PLANNED**

Plans for a summer camp were discussed at a meeting of that section of the Lovejoy Memorial fund committee, which has charge of the girl's work, Friday. A committee report showed 500 girls between the ages of 11 and 21 who could be reached through the various churches of the city.

### COUNTY COMMISSION ADOPTED IN BURNETT

Madison—One county in Wisconsin, Burnett, voted at its April election to adopt the county commission form of government, taking advantage of the Summerville law enacted by the 1921 session of the legislature. This will be the first county in the

state to be governed by commission. Polk and Rusk counties at the same election voted down the proposal that they change their form of government.

The Summerville law provides that any county upon petition of a sufficient number of citizens may determine whether it shall be governed by a commission or a county board.

Burnett county's decision to try the commission plan will be watched as an experiment in the state.

Whittall Rugs the Mark of Quality

Whittall's are always judged the best by those who are the best able to judge. And their superiority is so self-evident that it is at once apparent to all.

Whittall's on a rug means everything that is practical, beautiful and desirable. They reproduce perfectly the genuine Oriental, for they are not only made in the same designs, but the same materials as the Oriental rug—the toughest, strongest and most resilient wools procurable.

In designs and colorings Whittall's Rugs are exact and faithful reproductions of Turkish and Persian rugs of rare antiquity and great value.

The colors are so skilfully blended, too; they harmonize with almost any room color-scheme.

You may purchase them in room sizes and small ones.

Here are some of the principal grades of Whittall Rugs:

Whittall Anglo Persian.

Whittall Anglo Kirman.

Whittall Royal Teprac.

Whittall Peerless Body Brussels.

We also carry a large selection of other Rugs, which is complete in sizes and styles and emphasizes our high quality standard.
